

Creating a Radio Check Box

XFA Sample Form

By Thom Parker, WindJack Solutions, Inc.

The Radio Buttons displayed below contain JavaScript that allows the user to turn the selected Radio Button off. Two Scripts are used

1. "Mouse Down" - Captures the initial state of the button
2. "Mouse Up" - Sets the button value to off if it was initially on

Radio Check Boxes:

Option 1 Option 2 Option 3

Ordinary Radio Buttons:

Option 1 Option 2 Option 3
