```
>   * Missing icon for "Office" top-level menu
>   * Missing icon for "Accessories" / "Text Editor"
```

 I believe this is already fixed in Rawhide

```
>   * Missing icon for "System Tools" / "Logical Volume Management"
```

 I believe this is already fixed in Rawhide

```
>   * Missing icon for "System Tools" / "Bonobo Component Browser" (should
>     that be present at all)
```

 Filed as
 https://bugzilla.redhat.com/bugzilla/show_bug.cgi?id=154931

```
>   * Firefox icon in panel is wrong (it's the Mozilla lizard icon)
```

 Should be fixed by going back to Bluecurve

```
>   * OOwriter works (but doesn't use the GNOME filechooser)
```

 Filed as
 https://bugzilla.redhat.com/bugzilla/show_bug.cgi?id=154913

```
>   - OOimpress works
>   - OOcalc works
>   * No icons for .odt files
>   - .doc association works
>   * .ppt association DOES NOT WORK
```

 Filed as
