What's new in Fedora 9? Read the release notes. >>

Fedora is a Linux-based operating system that showcases the latest in free and open source software. Fedora is **always free for anyone to use, modify, and distribute.** It is built by people across the globe who work together as a community: the Fedora Project. The Fedora Project is open and anyone is welcome to join.

The Fedora Project is out front for you, **leading the advancement of free, open software and content**.
