Dear Mr. Nikolaos Menagias:

Your HP service support agreement and your Red Hat Enterprise Linux subscription(s) have been renewed. To ensure you receive the software updates, security alerts, and services included in the purchase of your subscription renewal, **your Red Hat Enterprise Linux subscription must be activated.** The attached certificate contains important subscription numbers you will need in the activation process.
Activating your Red Hat Enterprise Linux subscription is important.

Activation allows you to:
- Keep your systems secure and supported with updates delivered by Red Hat Network
- Receive notifications of the latest patches and supported configurations tested by HP and Red Hat
- Receive new versions of Red Hat Enterprise Linux as they are released
- Access seamless support provided by HP services and backed by Red Hat

Your HP support services are available. If you have any questions about your services or the activation of your Red Hat Enterprise Linux subscription, please call customer service at 1-877-445-7690
Thank you for renewing your services with HP.
