Finance Group ▾

Assets | Explorer

All Projects ▾

[New Asset...]

v Processes
- 🐾 Employee Expense Process
- 🐾 Contractor Expense Process

v Forms
- 📝 Employee Expense Form
- 📝 Manager Expense Form

v Models
- 🗄 Data Model 1
- 🗄 Data Model 2

v Rules
- Ⓡ Expense Limit Rules
- Ⓡ Time Limit Rules

Notes:
- 'Asset type' headings should NOT be styled as links.
- Asset type headings should all be open by default
- If users hide certain asset types, this state should be persisted between sessions
- Hide asset type headings that have no assets (same as current behavior)

> Processes
v Forms
  📝 Employee Expense Form
  📝 Manager Expense Form
> Models
> Rules

Notes:
'Asset-type' Link from home page (e.g.: 'user forms')
- hides other asset types
- defaults to "All Projects" within selected group

[New Asset...]

v Processes
   🔲 Employee Expense Process
v Rules
   Ⓡ Expense Limit Rules
   Ⓡ Time Limit Rules

Note:
- These assets exist within the "North America" project or its sub-projects
- If a user clicks 'new asset', the creation form should default to the project/ directory selected in the drop-down filter.

Notes:
- Top level group selector should affect explorer view
- Ideally, explorer capabilities should not conflict with top-level group selector (i.e., should not go above group level)
