Consider, sir, dispassionately, these
60 observations—for a glimpse of this truth seemed to
open before you when you observed, "that to see one
half of the human race excluded by the other from all
participation of government, was a political
phenomenon that, according to abstract principles, it

constitution rest? If the abstract rights of man will
bear discussion and explanation, those of woman, by
a parity of reasoning, will not shrink from the same
test: though a different opinion prevails in this
70 country, built on the very arguments which you use
to justify the oppression of woman—prescription.
