Hyperlink test document

January 21, 2018

This is a document to test hyperlinks in pdfs.
The purpose of this document is explained in Section 1.

1 Purpose

This document serves to have some relative links, as already appeared before this section. Additionally there should be some citations, for example to [1]. There can also be hypertext reference urls. It serves to test the poppler bindings with regard to link mappings. More on poppler can be found at `https://poppler.freedesktop.org/`.
