Professional Grade Concrete Overlays

PRO SEAL SUPREME

applications

Can be Used
With Liquid Colors

DESCRIPTION

Stone Edge Surfaces Pro Seal Supreme is a UV stable, non yellowing water based, Semi-Gloss finish, 20% solids, and Low Viscosity Epoxy Infused Acrylic sealer with excellent penetration and adhesion qualities when used on clean and unsealed new or existing concrete and concrete overlays. **Pro Seal Supreme** goes on white and dries clear, is low VOC and compliant in all states, and it has two main uses.

Pro Seal Supreme gives your jobs a beautiful Semi-Gloss look and can be applied on green or uncured concrete and overlays because it breaths and allows for outgassing.

Pro Seal Supreme is most commonly used as a concrete sealer, but can also be used with Stone Edge Surfaces Liquid Colors in a 1:10 ratio (1 part Liquid Color to 10 parts Pro Seal Supreme) with Pro Seal Supreme being the reactive agent that draws the natural pigments of the Liquid Colors into the concrete for long lasting coloration. Pro Seal Supreme comes in a 5-gallon bucket

MOST COMMON USES

As a Semi-Gloss Finish Concrete Sealer. Can also be mixed with Liquid colors as the reactive agent to draw the color into concrete to create a beautiful semi-gloss look. It is used on floors, driveways walkways and patios, vertical applications, stone veneer and more.
