Fractions

We use fractions to work out parts of things.

We will be learning about whole, ½ and ¼.
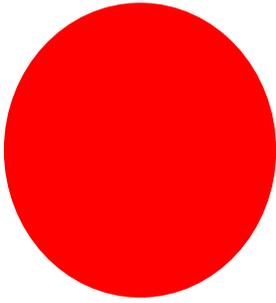

One whole.

This is the whole of a shape, item or number.

¼
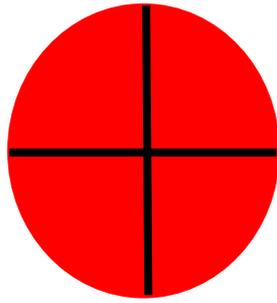

We split the item or number into 4 parts.

¼ means one of these parts!

½
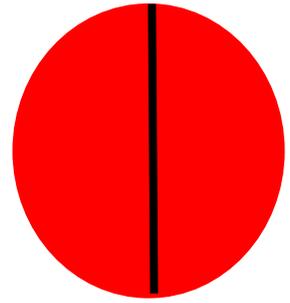

We split the item or number into 2 parts.

½ means one of these parts!

Draw three squares in your book.

In the first square colour in 1 whole.

In the second square colour in ½.

In the third square colour in ¼.

Challenge:

Get a biscuit. Cut it equally into halves and then quarters.
