Omega is a long-running watch manufacturer who has used many different watch movements, both in-house and from other manufacturers.

Omega Calibres - Watch Wiki: The Best Watches and Watch Brands

Calibre 1040 Collector's Guide - Movements. Calibres 1040 and 1041 occupy a very interesting place in Omega's history. They are easily distinguished from all other movements Omega used or produced in functionality, dial layout, and aesthetics. This uniqueness translates to both the dials used and the cases they inhabit.

Calibre 1040 Collector's Guide - Movements - Calibre 1040

We also acquired technical knitting expertise and diversified into fabrics for mass passenger transport. Our story A new chapter began when Interface Fabrics became Camira following a management buy-out. There's a whole story behind the name Camira, which includes a nod to the past, a view to the future, a dash of Latin thrown into the mix ...
