## RECREATIONAL FISHING QUESTIONNAIRE

## SCREENING QUESTIONNAIRE

Intro $\quad$ \{If state of residence $=H I\}$
Hello. I'm calling to conduct a survey for the National Marine Fisheries Service of the U.S. Department of Commerce.
[AS NEEDED: May I please speak with an adult in the household?]
We are collecting information for use in conservation of coastal resources and we would appreciate your help with this important study. Before we begin, I want to assure you that your answers will be kept confidential, and this call may be monitored for quality assurance.
\{If state of residence $=H I\}$
Hello. I'm calling to conduct a survey for the State of Hawaii's Division of Aquatic Resources and the U.S. National Marine Fisheries Service.
[AS NEEDED: May I please speak with an adult in the household?]
We are collecting information for use in conservation of coastal resources. We would appreciate your help with this important study. Before we begin, I want to assure you that your answers will be kept confidential, this call may be monitored for quality assurance, and that no information will be provided to any kind of tele-marketing firm.

1 YES - transferring \{set AnglerIntro=1\} \{resume at label AnglerIntro\}
2 NO

Q4 \{Ask if Q3=2 (gt9 attempts and respondent unavailable)\}
This is a very important study on saltwater fishing for the National Marine Fisheries Service. Would you be able to answer some questions about the fishing trips of any other people from your household, like ...
\{Restore list of names of people who haven't been interviewed.\}
1 YES
2 NO \{terminate and schedule callback\}
$3 \mathrm{DK} / \mathrm{R} \quad$ \{terminate and schedule callback\}

Q5 $\quad$ Ask if Q3=2 (gt9 attempts and respondent unavailable)\}
We want to gather information about recreational saltwater fishing. Saltwater fishing includes fishing in oceans, bays, and brackish portions of rivers. This does not include fishing in freshwater, or for shellfish, such as crabbing. Recreational fishing means the primary purpose of the fishing is for fun or relaxation, as opposed to providing income from the sale of fish.

Hello, I'm conducting a survey on recreational saltwater fishing for the National Marine Fisheries Service. By saltwater fishing, I mean fishing in oceans, sounds, or bays, or in tidal or brackish portions of rivers.

Q78 \{Ask if AskProxy=0\}
I understand that you've been recreational saltwater fishing in the past 2 months, and I'd like to ask you a few questions about your most recent trips. Of course, all of your answers will be kept confidential. The survey is conducted in accordance with the Privacy Act of 1974. You are not required to answer any question that you feel is an intrusion of your privacy.

## $\{$ LABEL X1 $\}$

Q81 Thank you for your assistance. That concludes this survey. Have a good day/night.

## \{SPECIAL SCREENS $\}$

## \{PRIVACY ACT STATEMENT $\}$

The information collected in the Marine Recreational Fishery Statistics Survey is authorized under the Fish and Wildlife Act of 1956, the Migratory Marine Fish Act of 1959, and the Fishery Conservation and Management Act of 1976. The information will be used in assessing the influence of fishing on any fish stock and in determining future recreational fishing needs.

All information collected will be combined with information provided by other recreational anglers and used only for statistical purposes. Any information that would permit identification for the individual will be held in strictest confidence and will be used only by persons engaged in, and for the purpose of, the survey.

Participation in this survey is voluntary and there are no penalties for refusing to answer any question. However, your cooperation in obtaining this much-needed information is extremely important in order to ensure the completeness and accuracy of the statistical results.

## \{Party/Charter Definition\}

A party boat is a boat where you probably don't know ALL of the other people on the boat. It's the kind of boat where you (and maybe a few of friends) would pay to go out on a boat. Other people, whom you probably don't know, would do this as well. The boat probably wouldn't leave until a certain number of individuals had paid to go on the trip. Trips usually last half the day or a full day. The cost of the trip is determined on a per person basis, and each person pays the same amount.

A charter boat is a boat where you and a group of people you know or are associated with hire the whole boat. The only other people on the boat are usually the captain and crewmembers. Instead of a per person price, you are usually quoted a price to rent the whole boat, although you and your group members may still decide to split this up among yourselves.

## \{Q7 Help \}

This question asks about people who live in your household, even if they have not been fishing for a long time. In this question, any kind of fishing qualifies.
$\{\mathrm{Q} 8,9,10,12,13$ Help $\}$

This study is designed to obtain data from residents of coastal counties of the United States, so it is important to confirm that you reside in one of the counties that the survey targets.

## \{Q14 Help \}

By permanent residence, I mean that this is the house you live in most of the year.
This study only collects information from permanent residents so it is important to confirm that this is your primary residence and is not a second home or vacation home.
\{Q15 Help\}

This information is required for statistical purposes. If you are uncomfortable providing me with the number of household residents in you home, that's okay. We can move onto the next question.

## \{Q16 Help\}

The important parts of this question concern the type of fishing that anyone in your household has done in the past 12 months in the United States. Specifically, I'm interested in SALTWATER fishing for FINFISH for RECREATIONAL purposes. How many people in your household have done that kind of fishing in the last 12 months?

## \{17 Help\}

The important parts of this question concern the type of fishing that you've done in the past 12 months in the United States. Specifically, I'm interested in SALTWATER fishing for FINFISH for RECREATIONAL purposes. Have you done that kind of fishing in the last 12 months?

## \{Q18 Help\}

Now I'm asking about that same kind of fishing, but just in the past 2 months in the United States. Remember, I'm interested in SALTWATER fishing for FINFISH for RECREATIONAL purposes.

Have you done that kind of fishing in the last 2 months?
\{Q19 Help\}
Now I'm asking about that same kind of fishing, but just in the past 2 months in the United States. Remember, I'm interested in SALTWATER fishing for FINFISH for RECREATIONAL purposes.

How many people in your household have done that kind of fishing in the last 2 months?

## \{Flex_PR1 Help\}

I'm interested in the collection of marine fish or invertebrates for display in home aquariums. They may include those collected for personal enjoyment as well as those sold for profit.

I am interested in both fin-fish or invertebrates including:

| anemones | crabs | clams |
| :--- | :--- | :--- |
| lobsters | octopus | plants |
| snails | sponges | squid |
| starfish | urchins |  |

Has anyone in your household collected marine fish or invertebrates for a home aquarium in the last twelve months?
\{Flex_PR2 Help\}

I am interested in approximately how many marine fish and invertebrates people in this household have collected during the past 12 months. They may include those collected for personal enjoyment as well as those sold for profit.

I am interested in both fin-fish or invertebrates including:

| anemones | crabs | clams |
| :--- | :--- | :--- |
| lobsters | octopus | plants |
| snails | sponges | squid |
| starfish | urchins |  |

Approximately how many fish or invertebrates were collected by this person or persons in the last twelve months?

## \{Q34 Help\}

We're interested in trips that you've taken in the past two months, so please only tell me about trips taken between \{restore recall period\} in \{restore state\}.
[If respondent says he/she only fishes in fresh water, say "brackish portions (which are portions that are affected by the tide) of rivers also qualify as saltwater fishing for this survey.]

## \{Q35 Help \}

The previous question sounds a lot like this one. This question asks about trips from other coastal states, while the previous question is concerned with trips from \{restore state of residence\}.

We're interested in trips that you've taken in the past two months, so please only tell me about trips taken between \{restore recall period\}.
[If respondent says he/she only fishes in fresh water, say "brackish portions (which are portions that are affected by the tide) of rivers also qualify as saltwater fishing for this survey.]
\{Q36 Help\}
[\{Restore interviewer name\}, you will need to use the calendar(s) to assist the respondent in recalling the specific date of the trip. For example, if the respondent says "a weekend in July," you can refer to your calendar and state the dates of the weekends in July and ask them to choose the correct date. If the respondent can't remember the specific date, try to find out if it is a weekend or weekday and choose the correct response category.]
\{Q40 Help $\}$
[\{Restore interviewer name $\}$, you may choose up to two responses but they CANNOT be from the same category. That is, you can choose EITHER private or rental boat AND EITHER party/head boat or charter boat.

If the respondent says two modes within the same category, ask to choose the last one used for that trip.]

Definitions:

Party Boat: A boat where you probably don't know ALL of the other people on the boat. It's the kind of boat where you (and maybe a few of friends) would pay to go out on a boat. Other people, whom you probably don't know, would do this as well. The boat probably wouldn't leave until a certain number of individuals had paid to go on the trip. Trips usually last half the day or a full day. The cost of the trip is determined on a per person basis, and each person pays the same amount.

Charter Boat: A boat where you and a group of people you know or are associated with hire the whole boat. The only other people on the boat are usually the captain and crewmembers. Instead of a per person price, you are usually quoted a price to rent the whole boat, although you and your group members may still decide to split this up among yourselves.]

Private Boat: A boat belonging to an individual.

Rental Boat: A boat that is rented. No crew is provided. The renter operates the boat.

## \{Q49 Help $\}$

[If respondent fished from more than one of the following on the same day, ask for the last place he/she fished from.]

## Definitions:

Pier, dock: a structure built over the water and supported by pillars.
Jetty: a kind of wall, usually made of rocks, built out into the water or parallel to the shore to restrain currents or protect a harbor.

Breakwater: an offshore structure used to protect a harbor or beach from the forces of waves.

Breachway: a connecting channel.
Bulkhead or Sea wall: a retaining wall along a waterfront (code as 2, Jetty/breakwater/breachway)

Causeway: An elevated or raised way across wet ground or water.

Beach: a level stretch of pebbles or sand beside a body of water, often washed by high water.

Bank: a stretch of rising land at the edge of a body of water not washed by high water, which could be rocks or an overhanging cliff.

Other: any other non-boat fishing.
\{Q52* Help $\}$
This question is intended to obtain the state in which the respondent was fishing.

## \{Q53* Help $\}$

This question is intended to obtain the state in which the respondent was fishing.
\{Q54* Help \}

This question is intended to obtain the county (or parish/island/municipality) in which the respondent was fishing.
\{Q60* Help \}
The location of your fishing will help us to know where the majority of fishing takes place.
Definitions:

Ocean: entire body of salt water.
Sound: A long relatively wide body of water, larger than a strait or a channel, connecting larger bodies of water. Examples: Long Island Sound, Nantucket Sound

River: A large natural stream of water emptying into an ocean, a lake, or another body of water and usually fed along its course by converging tributaries.

Bay: A small body of water set off from the main body. Or an inlet of the sea that is smaller than the gulf. Open bays are not true bays, but stretches of water that are called "such and such bay" by local residents.
Example of an open bay: Cape Cod bay.
Example of a closed bay: Chesapeake Bay, Buzzards Bay.
Inlet: a narrow water passage between peninsulas or through a barrier island leading to a bay or lagoon.
\{ECAP1* Help \}
We are interested in which FINFISH you intended on catching when you started on your SALTWATER fishing trip, regardless to what you actually caught.
\{ECAP2* Help \}
This questions sounds a lot like the previous one, but there is a distinction between what anglers WANTED to catch verses what they ACTUALLY caught. We are interested in both finfish that were CAUGHT BUT RELEASED as well as those HARVESTED.

## \{ECAP3 Help\}

DEFINITION OF RESIDENCE FOR THIS QUESTION: a domicile requiring expenditures/maintenance costs (as opposed to a fixed fee) for the respondent.
FOR EXAMPLE: A home in North Carolina is your residence, because even if you take a month's vacation in Florida, you pay heating, mortgage, and other costs for that home. If your month stay in a timeshare in Florida requires you to pay maintenance and other costs, it is also considered a "residence." BUT a temporary stay in Florida that requires a flat rate for a certain amount of time is not considered a "residence."

DEFINITION OF "AWAY FROM RESIDENCE" - A temporary stay, of any length, away from a residence where a respondent pays maintenance and other costs.

EXAMPLES: A hotel that charges per night; A vacation resort with a flat week rate package; etc. HOWEVER, a two-week condo stay where the respondent pays for the time, a condo fee, and heating costs, is not considered "away from your residence" - it is considered their (temporary) "residence.

## \{ECAP4 Help\}

Would you have made the trip even if you hadn't the chance to go fishing, or was a vital reason for the trip the opportunity to fish?
INTERVIEWER: This question is particularly important for anglers that were on an overnight trip.

EXAMPLE: A person takes a business trip to a coastal city and brings a fishing rod so s/he can fish in the evening. His/her primary trip purpose would be for business, not for fishing.
EXAMPLE: A family goes on vacation in a coastal city because of its beaches, aquariums, and amusement parks. The family may spend one day fishing, however their primary purpose was a family vacation. Therefore, they would have made the trip even if they could not have gone fishing.

## \{ECAP 6 Help \}

ZIP Code is asked to refine geographic analyses of data.

## \{ECAP7 Help \}

How many saltwater fishing trips did you take within the past 12 months?
These include the trips during the past two months that we just profiled.
They should include all RECREATIONAL SALTWATER trips for FINFISH, regardless of what you caught.

## \{ECAP9 Help\}

How many years have you been saltwater recreational fishing?

Please only include years of actual fishing activity. Your best guess is fine.

## \{ECAP10 Help \}

How many hours a week do you usually work?
Thinking about the last several weeks, how many hours a week have you been employed for pay? Your best guess is fine.
\{ECAP11* Help $\}$
Respondents are asked their PERSONAL income using general Census classifications.

Please include only YOUR income, not the total income of your household.

Obtaining this information can help ensure we have data representative of population groups.

## \{LABEL X2 $\}$

\{Ask if not a permanent resident\} That's all the questions that I have for you. We are only collecting data from people we have reached at their permanent residence. Have a good night/day.

## Documentation of flags:

Zero2mo - Boolean, 2 month angler present
$0=2$ month angler in household
$1=$ no 2 month angler
$2 \mathrm{MoVar}, 12 \mathrm{MoVar}$ - Count of anglers for that category
AngCat - Highest ranking angler category, For EAO or ECAP
$1=$ Never been salt water fishing (Q7)
$2=$ Haven't rec salt water fished in last 12 months ( $\mathrm{Q} 16,17$ )
3 = Haven't rec salt water fished in last 2 months ( $\mathrm{Q} 18,19$ )
$4=$ Recent Angler (Q18,19)
AnglerIntro - documents whether or not introduction is to be read to new angler. 1=yes.
AskProxy - Proxy interview being obtained.
COAST - from SAS programming, identifies county characteristics
1 = coastal county
2 = non-coastal county in coastal state
$3=$ non-coastal state
$4=$ Texas and Alaska records
CoastCod - boolean, coastal state, created by DH and imported
1 = from coastal county, part of base study

Count 1 - Count of interviews obtained.
EAO_Done - Boolean, Whether or not EAO requirements met
$0=$ Data still needed.
1 = Requirements satisfied - Either non-qualified region or interview obtained.

TotalAngler number of anglers specified in Q15
TripUp Number of trips profiled
