

INCIDENT MANAGEMENT SITUATION REPORT
 TUESDAY, OCTOBER 5, 1999 - 0530 MDT
 NATIONAL PREPAREDNESS LEVEL III

CURRENT SITUATION:

Minimal initial attack activity was reported from all Geographic Areas. New large fire activity was reported in the Eastern Great Basin Area. The National Interagency Coordination Center mobilized helicopters, infrared aircraft, an airtanker, a lead plane, radio equipment, dozers, and miscellaneous overhead. Very high to extreme fire indices were reported in Oregon, Washington, California, Idaho, Utah, Colorado, Indiana, and Georgia.

NORTHERN CALIFORNIA LARGE FIRES:

BIG BAR COMPLEX, Shasta-Trinity National Forest. An Area Command Team (Roberts), a Type I Incident Management Team (Bateman) and a Type I Incident Management Team (Frye) are assigned. The complex is 28 miles northwest of Weaverville, CA. The complex consists of the Megram and Onion fires. The indirect fireline on the south, west and northwest flanks is complete. A burnout operation has begun on the southwest. Crews continue to improve indirect firelines.

GUN 2, Tehama-Glenn Ranger Unit, California Department of Forestry. A Unified Command with California Department of Forestry (Johnson) and the U.S. Forest Service (Madden) is in place. The fire is 20 miles east of Redding, CA. Crews continue to improve firelines.

INCIDENT NAME	ST	UNIT	SIZE	%	EST CTN	TOTAL PERS	CRW	ENG	HELI	STRC	EST LOSS	\$\$\$ C-T-D
BIG BAR COMPLEX	CA	SHF	99013	41	UNK	2564	64	74	13	0	NR	34.4M
GUN 2	CA	TGU	60390	75	10/8	3180	122	97	17	0	12M	5.7M

SOUTHERN CALIFORNIA LARGE FIRES:

KIRK COMPLEX, Los Padres National Forest. A Type I Incident Management Team (Foster) is assigned to the Kirk Complex North, which includes the Tassajara, Five and Mountain fires. A Type I Incident Management Team (Hutchinson) is assigned to the Kirk Complex South, which includes the Hare and Kirk fires. The fire continued to spread northwest downhill and then up the Carmel River drainage. Favorable conditions allowed for firing operations to continue on the west and northwest flanks. The fire made a strong run up the North Fork of Big Creek against the west and northwest firelines and was checked with air support and ground crews. The fire continued to back into the Big Creek and Devils Canyon areas with structure protection being provided.

LA JOLLA, Cleveland National Forest. A Type II Incident Management Team (Conrad) is assigned. This fire is near Warner Springs, CA. No new

information was received.

SHOCKEY, San Diego Ranger Unit, California Department of Forestry. This fire is south of Campo, CA. Work is progressing to tie in the fireline and spot fires continue to be a problem.

INCIDENT NAME	ST	UNIT	SIZE	% CTN	EST CTN	TOTAL PERS	CRW	ENG	HELI	STRC LOSS	EST LOSS	\$\$\$ C-T-D

OUTLOOK:

An upper level ridge centered over the Rocky Mountains will weaken as a mid-level storm system moves northeast over the northern Rocky Mountains. Winds from the west to southwest are expected to increase during the afternoon from eastern Washington and Oregon to the northern Rocky Mountains and south through the Great Basin. The continuation of onshore low level flow over the west will spread higher relative humidities further inland this afternoon, reaching the eastern slopes of the Washington and Oregon Cascade Mountains and south over northern California. Afternoon high temperatures will be cooler with valley highs

mainly in the mid 50's thru the 60's, except in southern California which will be in the 70's to mid 80's. The mountain high temperatures will be in the mid 40's and 50's.

The Gulf states will be mostly sunny in the western portion and mostly cloudy in the east with a chance of showers and thunderstorms. High temperatures will be in the mid 70's to mid 80's.
