I believe that using these spaces to get internet to those who live in areas that don't have it/can't afford it is the best thing that could be done. The internet is a vital tool for information and knowledge. These people need it, and are entitled to it.

Penelope Hatcher 1801 Schley Avenue Albany, GA 31707 phatcher@bishopcleancareinc.com
I believe the internet and white spaces should stay open to the public. Don't let corporate lobbyist affect our public domain.

I believe the internet should be free to all. The cost of access to the internet is an outrage!

I believe the opening of the "White Space" to new innovators for the expressed purpose of high speed Internet access would be in the best interest of all the citizens of the United States. I appreciate you time in reading my email.

I believe the opening of these airwaves will benefit both the government and the people immediately. You should reconsider your opposition to allowing free access to the internet.

Leroy Casterline 3520 Gila Bend Casper, WY 82604 casterle@ccltd.com
I believe the white spaces plan offers great benefit to those who are not now served with high speed Internet access. The Internet is becoming one of the most important educational and business resources on many fronts.

Xavier Estrada 4615 Bedilion St. Los Angeles, CA 90032 xxxman@sbcglobal.net
I believe strongly that the white spaces should be open to the public. And that groups like Rupert Murdoch CO. have enough all ready. After all the air waves are suppose to be for the PEOPLE, not Companies. Xavier Estrada

I can only hope that Congress becomes fully Democratic Party - maybe it will halt "attacks" such as what NAB is doing. Isn't it about time that the FCC supports mainstream citizens - who actually do own those white spaces?

Joshua Pennington 749 W. Barstow Fresno, CA 93704 joshuapennington@gmail.com
I can think of no greater public service than the dissemination of information. Please vote to open these "white spaces" for public use.

I can't think of a thing that would have greater impact on rural America than access to the internet-inexpensively. Just IMAGINE how those lives would expand, especially the children's' educations, into the 21st century!

I certainly thought the reason for digital TV signals was to provide space in the bandwidth for additional communications to help the consumer. Stand up to the NAB and support rural America!

I denounce the attempt of corporations to monopolize these communications channels, which are intended to serve the general public. I urge you to honor your obligation to serve the public good and promote open access to these media channels.

Joseph Zakrzewski 1450 Golden Gate Avenue #301 San Francisco, CA 94115 jaz43sf@sbcglobal.net
I do not agree with the National Association of Broadcasters viewpoint about vacant TV channels aka "white spaces". They should be use to bring high-speed internet connection to rural and lo-income Americans across the country.

Michael Develle 482 Wanapum Pl La Conner, WA 98257 michael.develle@gmail.com
I don't believe it. Having to lobby the FCC for things like white space that benefit all in the face of the NAB companies that want the space. Isn't your job to look out for "we the people"? Please don't give in and give away this space.

I don't listen to commercial radio in this area because the talk shows give only a far right view, yelling, swearing. It's my air, too. or so the law says.. so why can't I hear both sides of a question?

I don't understand airwaves. etc. but I DO know that my international friends, in isolated areas have free unfettered internet. They own the airwaves. If other nations can do it, why can't we?

I don't understand why the current crop of broadcasters needs even more control of air waves. In your decision making I believe it's important for you to remember that you're charged with protecting the public's access to information.

I feel it is a right of all Americans to have access to all new innovations in communications without the quashing by big business. In this case NAB is a very appropriate term for what the National Association of Broadcasters is pushing.

I guess they thought we'd be too distracted by the election to keep an eye on what they're up to. They're wrong. "White space" should be opened up to millions of Americans who need it most.

I had an internet connection of 24 kbps until recently, when I moved. There is still nothing but dialup available in far too many areas of our country. If we are to compete on the world stage, we all must be able to take advantage of modern technology.

The telcos and cable companies haven't done well with getting broadband out to rural areas. Please open white spaces to high speed access!

The telecom industry is already overtaxed and overcharges thereby limiting bandwidth and holding back the economy. Any opportunity to increase end user bandwidth and lower pricing will directly improve our economy. Internet on White Spaces is good.

The U.S. has fallen way behind when it comes to high speed internet access. Telecoms like Verizon refuse to extend existing lines to rural areas like mine. White space technology could be what we need to extend high-speed to everyone. Give it a shot.

The U.S. invented the Internet but is now behind many advanced countries for speed and percent of households connected. The internet is too important, and white space is a strong option to improve access to the "information highway." Thank you

The USA ranks about 15th in the world in internet speed and broadband availability. Ref: <http://www.itif.org/files/BroadbandRankings.pdf> I believe this is largely due to the influence of corporations protecting their imagined interests, to our detriment

Frank Lornitzo You know in your hearts you have already saturated the propaganda.	P.O. Box 246, 297 North Pleasant Street	Bradford, VT 05033	blesdskrumheit@yahoo.com
Tallin Curran You know that this is the right thing to do. The NAB is often on the wrong side of communications issues.	2205 Dawn Place	Granite City, IL 62040	tallin@gmail.com
Dennis Skaugrud You know, we are all adults here, Anyone who is involved in this issue understands the potential of using the open spaces for the public good. Don't you think the NAB has enough bandwidth? Leave some airwaves to the people to play in!	19125 Soundview Drive Nw	Stanwood, WA 98292	dskaugrud@yahoo.com
Hamish Gowans You like choice when you buy a car. What if you could only buy Chevy or Ford? You know you wouldn't have all the choices available and especially that the companies wouldn't respond to public demands. But that is exactly our communication system needs.	506 East St	Golden, CO 80403	tengudo@gmail.com

Simone Morgen	38 West Tulane Road	Columbus, OH 43202	smorgen@juno.com
You may have been appointed by people who are heavily supported by commercial broadcasters, but it is time to remember that these are our airwaves and frequencies. Try to resist allowing NAB to pauperize low income people.

You will probably be out of a job in a few months. How proud will you be to have left a legacy of ripping off the opportunities for everyone by supporting dying economic ideas of a failed president.			
Sean Jaslove	8100 Brooke Park Dr	Canton, MI 48187	seanj82@gmail.com
You work for the American people, not for the corporations. You must make affordable, high tech information access available to everyone. Remember who you work for, not who wants to line your pockets so they can line theirs.

You're voting in 6 days? Remember who owns the airwaves. Did you know - your own engineers have tested white spaces devices and determined that the technology can deliver high-speed wireless Internet, without interfering with adjacent TV broadcasts. Thx!			
Diana Gerardi	97 South Street	Northampton, MA 01060	dgerardi@pubpol.umass.edu
You've already given the NAB so much of the spectrum, give the people back their whitespaces!!			
Philip Stratton	9 7Th Place West, #336	Saint Paul, MN 55102	phlstr36@earthlink.net
You've given enough bandwidth away in the past. Why? These corporations give nothing back, and cable TV is only going to become more expensive next month. Another unregulated mess. Who are you working for?
