RIN 1210-AA48

Plans Established or Maintained Pursuant to Collective Bargaining Agreements Under Section 3(40)(A) of ERISA

AGENCY: Pension and Welfare Benefits Administration, Department of Labor.

ACTION: Negotiated rulemaking advisory committee meeting.

SUMMARY: The Department of Labor's (Department) ERISA Section 3(40) Negotiated Rulemaking Advisory Committee (Committee) was established under the Negotiated Rulemaking Act of 1990 and the Federal Advisory Committee Act (the FACA) to develop a proposed rule implementing the Employee Retirement Income Security Act of 1974 (ERISA), as amended. The purpose of the proposed rule is to establish a process and criteria for a finding by the Secretary of Labor that an agreement is a collective bargaining agreement for purposes of section 3(40) of ERISA. The proposed rule will also provide guidance for determining when an employee benefit plan is established or maintained under or pursuant to such an agreement. Employee benefit plans that are established or maintained for the purpose of providing benefits to the employees of more than one employer are "multiple employer welfare arrangements" (MEWAs) under section 3(40) of ERISA, and therefore are subject to certain state laws, unless they meet one of the exceptions set forth in section 3(40)(A). At issue in this regulation is the exception for plans or arrangements that are established or maintained under one or more agreements which the Secretary finds to be collective bargaining agreements. It is the view of the Department that it is necessary to distinguish organizations that provide benefits through collectively bargained employee representation from organizations that are primarily in the business of marketing commercial insurance products.

DATES: The Committee will meet from 8:30 am to approximately 5:00 pm on each day on Tuesday, April 20 and Wednesday, April 21, 1999.

ADDRESSES: This Committee meeting will be held in Conference Room N-4437 C/D, at the offices of the U.S. Department of Labor, 200 Constitution Avenue, NW, Washington, DC, 20210. All interested parties are invited to attend this public meeting. Seating is limited and will be available on a first-come, first-serve basis. Individuals with disabilities wishing to attend who need special accommodations should contact, at least 4 business days in advance of the meeting, Patricia Arzuaga, Office of the Solicitor, Plan Benefits Security Division, U.S. Department of Labor, Room N-4611, 200 Constitution Avenue, NW, Washington, DC 20210 (telephone (202) 219-4600; fax (202) 219-7346). The date, location and time for subsequent Committee meetings will

be announced in advance in the **Federal Register**.

FOR FURTHER INFORMATION CONTACT: Patricia Arzuaga, Office of the Solicitor, Plan Benefits Security Division, U.S. Department of Labor, Room N-4611, 200 Constitution Avenue, NW, Washington, DC 20210 (telephone (202) 219-4600; fax (202) 219-7346). This is not a toll-free number.

SUPPLEMENTARY INFORMATION: Minutes of all public meetings and other documents made available to the Committee will be available for public inspection and copying in the Public Documents Room, Pension and Welfare Benefits Administration, U.S. Department of Labor, Room N-5638, 200 Constitution Avenue, NW, Washington, DC from 8:30 a.m. to 4:30 p.m. Any written comments on these minutes should be directed to Patricia Arzuaga, Office of the Solicitor, Plan Benefits Security Division, U.S. Department of Labor, Room N-4611, 200 Constitution Avenue, NW, Washington, DC 20210 (telephone (202) 219-4600; fax (202) 219-7346). This is not a toll-free number.

Agenda

The Committee will continue to discuss the possible elements of a process and potential criteria for a finding by the Secretary of Labor that an agreement is a collective bargaining agreement for purposes of section 3(40) of ERISA (29 U.S.C. 1001 *et seq.*). Discussion of these issues is intended to help the Committee members define the scope of a possible proposed rule.

Members of the public may file a written statement pertaining to the subject of this meeting by submitting 15 copies on or before Tuesday, April 13, 1999, to Patricia Arzuaga, Office of the Solicitor, Plan Benefits Security Division, U.S. Department of Labor, Room N-4611, 200 Constitution Avenue, NW, Washington, DC 20210. Individuals or representatives wishing to address the Committee should forward their request to Ms. Arzuaga or telephone (202) 219-4600. During each day of the negotiation session, time permitting, there shall be time for oral public comment. Members of the public are encouraged to keep oral statements brief, but extended written statements may be submitted for the record.

Organizations or individuals may also submit written statements for the record without presenting an oral statement. 15 copies of such statements should be sent to Ms. Arzuaga at the address above. Papers will be accepted and included in the record of the meeting if received on or before April 13, 1999.

Signed at Washington, DC, this 22nd day of March, 1999.

Assistant Secretary, Pension and Welfare Benefits Administration.

SUPPLEMENTARY INFORMATION:

I. Background

On November 2, 1987, the United Mine Workers of America (UMWA) and the United Steelworkers of America (USWA) jointly petitioned MSHA to adapt the Occupational Safety and Health Administration's (OSHA's) Hazard Communication Standard (HCS) to both coal and metal/nonmetal (M/NM) mines and to propose it for the mining industry. They based their petition on the need for miners to be better informed about the chemical hazards in their workplace.

In response to this petition, we published an advance notice of proposed rulemaking (ANPRM) on hazard communication for the mining industry on March 30, 1988 (53 FR 10256); published the hazcom proposal on November 2, 1990 (55 FR 46400); and held three public hearings in 1991. The record closed on January 31, 1992.

The hazcom proposal would require an operator to develop and implement a hazcom program which includes—

- (1) Evaluating the hazards of chemicals present at the mine and maintaining a list of those determined to be hazardous;

- (2) Labeling containers of hazardous chemicals;

- (3) Preparing or obtaining material safety data sheets (MSDS's) for each hazardous chemical;

- (4) Training miners; and

- (5) Providing access to the written materials.

An effective hazcom program increases both awareness and knowledge of the hazards of chemicals in the workplace. Awareness and knowledge of chemical hazards present in the workplace increase the likelihood that a miner will take appropriate precautions when working with or around chemicals. We believe that the use of these precautions will help reduce the incidence of chemically-related, occupational injuries and illnesses among miners.

Our hazcom proposal would integrate our existing labeling requirements into a new, comprehensive, hazcom program. We based the hazcom proposal on comments received in response to the ANPRM, as well as on our experience in the mining industry. We also considered relevant standards of other Federal agencies, including OSHA's experience with its HCS, and applicable legislation. MSHA's hazcom proposal is generally consistent with OSHA's HCS.

Although we are preparing the final rule, we first need to address several regulatory mandates, some of which were not in existence when we
