	(3) For those whose training was completed prior to July 1, 1960: Successful completion of 24 full months of training and/or experience of which at least 12 full months were under the direct supervision of a physician who is certified in radiology by the American Board of Radiology or who possesses qualifications which are equivalent to those required for such certification, and at least 12 full months of pertinent portable X-ray equipment operation experience in the 5 years prior to January 1, 1968.				
H22	No. of Technologists meeting: 1 2 3 License required?				
H23	(b) Personnel Orientation The supplier of portable X-ray services has an orientation program for personnel based on a procedural manual which is: Available to all members of the staff, incorporates relevant portions of professionally recognized documents, and includes instruction in all of the following:				
H24	 Precautions to be followed to protect the patient from unnecessary exposure to radiation; 				
H25	(2) Precautions to be followed to protect an individual supporting the patient during X-ray procedures from unnecessary exposure to radiation;				

CODE	STANDARDS	MET	NOT MET	N/A	EXPLANATORY STATEMENT
H26	(3) Precautions to be followed to protect other individuals in the surrounding environment from exposure to radiation;				
H27	 (4) Precautions to be followed to protect the operator of portable X-ray equipment from unnecessary exposure to radiation; 				
H28	(5) Considerations in determining the area which will receive the primary beam;				
H29	(6) Determination of the time interval at which to check personnel radiation monitors;				
H30	(7) Use of the personnel radiation monitor in providing an additional check on safety of equipment;				
H31	(8) Proper use and maintenance of equipment;				
H32	(9) Proper maintenance of records;				
H33	(10) Technical problems which may arise and methods of solution;				
H34	(11) Protection against electrical hazards;				
H35	(12) Hazards of excessive exposure to radiation.				
H36	 (c) Employee Records Records are maintained and include evidence that— (1) Each employee is qualified for his or her position by means of training and experience; and (2) Employees receive adequate health supervision. 				

CODE	STANDARDS	МЕТ	NOT MET	N/A	EXPLANATORY STATEMENT
H37	§486.106 REFERRAL FOR SERVICE AND PRESERVATION OF RECORDS All portable X-ray services performed for Medicare beneficiaries are ordered by a doctor of medicine or doctor of osteopathy and records are properly preserved.				
H38	 (a) Referral by a Physician Portable X-ray examinations are performed only on the order of a doctor of medicine or doctor of osteopathy licensed to practice in the State. The supplier's records show that: The X-ray test was ordered by a licensed doctor of medicine or doctor of osteopathy, and Such physician's written, signed order specifies the reason an X-ray test is required, the area of the body to be exposed, the number of radiographs to be obtained, and the views needed; it also includes a statement concerning the condition of the patient which indicates why portable X-ray services are necessary. 				
H39	(b) Records of Examinations Performed The supplier makes for each patient a record of the date of the X-ray examination, the name of the patient, a description of the procedures ordered and performed, the referring physician, the operator(s) of the portable X-ray equipment who performed the examination, the physician to whom the radiograph was sent, and the date it was sent.				
H40	 (c) Preservation of Records Such reports are maintained for a period of at least 2 years, or for the period of time required by State law for such records (as distinguished from requirements as to the radiograph itself), whichever is longer. 				
	Number of physicians' orders reviewed				
H41	Physicians' justification for portable X-rays recorded.

CODE	STANDARDS	МЕТ	NOT MET	N/A	EXPLANATORY STATEMENT
H50	(h) Protective Gloves and Aprons Protective gloves and aprons are provided so that when the patient must be held by an individual, that individual is protected with these shielding devices.				
H51	(i) Restriction of the Useful Beam Diaphragms, cones, or adjustable collimators are used to restrict the useful beam to the area of clinical interest.				
H52	(j) Personnel Monitoring A device which can be worn to monitor radiation exposure radiation exposure portable X-ray equipment. The device is evaluated for appropriate records are maintained by the supplier of portable X-ray services of radiation exposure measured by such a device for each individual.				
H53	(k) Personnel and Public Protection No individual occupationally exposed to radiation is permitted to hold patients during exposures except during emergencies, nor is any other individual regularly used for this service. Care is taken to assure that pregnant women do not assist in portable X-ray examinations.				
H54	§486.110 INSPECTION OF EQUIPMENT Inspections of all X-ray equipment and shielding are made by qualified individuals at intervals not greater than every 24 months.				
H55	(a) Qualified Inspectors Inspections are made at least every 24 months by a radiation health specialist who is on the staff of or approved by an appropriate State or local government agency.				
H56	(b) Records of Inspection and Scope of Inspection The supplier maintains records of current inspections which include the extent to which equipment and shielding are in compliance with the safety standards outlined in 486.108.

According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 0938-0027. The time required to complete this information collection is estimated to average 2 hours per response, including the time to review instructions, search existing data resources, gather the data needed, and complete and review the information collection. If you have any comments concerning the accuracy of the time estimate(s) or suggestions for improving this form, please write to: CMS, Attn: PRA Reports Clearance Officer, 7500 Security Boulevard, Baltimore, Maryland 21244-1850.
