

My family became a Voom customer after purchasing an HDTV in 2004. We love Voom's HDTV programming content and hope to continue to receive VOOM programming. In our opinion Voom is the only HDTV content provider that justifies our investment in a new HDTV. Note, that we are NOT big sports fans either! VOOM's commitment to HDTV is unequaled by our local cable operator and the other satellite services. We hope you will honor VOOM HD LLC's desire to continue operating Rainbow-1 at the 61.5 frequencies. I would also like to remind the FCC of their responsibility to foster increased competition and consumer choice.

Thank you. DeWayne Rosene
