

Conservation Reserve Program Summary and Enrollment Statistics

Farm Service Agency

FY 2007

This report provides statistics for land enrolled in the Conservation Reserve Program (CRP), including a summary of FY 2007 CRP related activities, FY 2007 CRP outlays by payment type, continuous CRP enrollment activity, outlay and sign-up history, CRP practice and payment provisions, and environmental benefits index (EBI) history.

The enrollment tables are based on contract data developed and maintained in CRP data files by Farm Service Agency (FSA) county offices and are generally based on the physical location of the CRP contracted land. Some adjustments have been made to correct mis-coded data in active contract files.

The report was prepared by Alex Barbarika, Natural Resources Analysis Group, Economic and Policy Analysis Staff (EPAS), Farm Service Agency (FSA), U.S. Department of Agriculture. Support and assistance from others in FSA's Conservation and Environmental Programs Division and EPAS are greatly appreciated.

April 2008

I am pleased to present this fiscal year 2007 edition of the Conservation Reserve Program's Summary and Enrollment Statistics. CRP is our nation's largest private-lands conservation program. Through this voluntary program, USDA's Farm Service Agency (FSA) establishes contracts with agricultural producers to retire highly erodible and other environmentally sensitive cropland and pastureland.

During the 10 to 15 year CRP contract period, participants convert enrolled land to grass, trees, wildlife cover, and other conservation uses.

CRP plantings and practices offer our nation vast environmental benefits, including reducing soil erosion, improving surface and ground water quality, creating wildlife habitat, restoring wetlands, sequestering carbon, preserving soil productivity, and reducing offsite wind erosion damages. Some of CRP's substantial 2007 accomplishments include:

- Reducing runoff of sediment (207 million tons), nitrogen (480 million pounds), and phosphorus (108 million pounds) from agricultural soils.
- Restoring and protecting 2.1 million acres of wetlands and adjacent buffers.
- Establishing 1.9 million acres of grass and forested buffers along the nation's rivers and streams.
- Improving populations of Prairie Pothole ducks, ring-necked pheasants, sage grouse, bobwhite quail, and other grassland birds.
- Sequestering over 50 million tons of carbon.

An increasingly important component of CRP is the continuous sign-up, which includes numerous initiatives and the Conservation Reserve Enhancement Program (CREP). In October 2007, we enrolled the one millionth acre in CREP. Other initiatives (and acreage goals) currently available to farmers and ranchers include establishing:

- Bobwhite quail and upland bird habitat buffers (250,000 acres).
- Bottomland hardwood trees (500,000 acres).
- Non-flood plain and playa lakes wetlands (250,000 acres).
- Flood plain wetlands (500,000 acres).
- Longleaf pine ecosystems (250,000 acres).
- Prairie pothole duck nesting habitat (100,000 acres).
- State acres for wildlife enhancement (500,000 acres).

We are proud of CRP's evolution from a program to idle and protect highly erodible cropland to an environmentally focused program targeting multiple high-priority resource conserving objectives.

Teresa C. Lasseter
Administrator, FSA

Conservation Reserve Program

Enrollment Statistics and Program Summary

2007 Fiscal Year

ACTIVE CONTRACTS, END OF FY 2007

<u>Sign-up Type</u>	<u>Contracts</u>	<u>Farms</u>	<u>Acres</u>	<u>Annual Rental Payments b/</u> (\$Million)	<u>(\$/Acre)</u>
General	427,497	276,774	32,924,523	\$1,442	\$43.81
Continuous					
Non-CREP	291,139	176,172	2,716,810	\$240	\$88.25
CREP	55,217	36,923	962,857	\$119	\$121.72
Subtotal	346,356	207,186 a/	3,679,667	\$357	\$97.01
<u>Farmable Wetland</u>	<u>10,787</u>	<u>8,625</u>	<u>166,793</u>	<u>\$20</u>	<u>\$118.71</u>
Total	784,640	442,359 a/	36,770,984	\$1,819	\$49.47

a/ Number of farms not additive across sign-up types because a farm may participate in multiple sign-up types.

b/ Approximates payments which are paid October 2007 (FY 2008), before adjustments for haying/grazing, non-compliance, terminations, part-year contracts. Includes annual incentive and maintenance allowance, but not one-time up-front signing and practice incentive.

CRP Enrollment over Time
(Cumulative End-of-Year)

CRP ACTIVITIES, FY 2007

October, 2006

- Secretary Johanns announces CRP payments of \$1.8 billion in CRP rental payments in FY 2007 for lands enrolled as of September 30, 2006.
- Teresa Lasseter, FSA administrator, announces the 250,000-acre Longleaf Pine forest ecosystem restoration initiative.

January, 2007

- Secretary Johanns announces 6,000-acre CREP agreement with Arkansas to restore hardwood tree forests and wetlands for wildlife.

March, 2007

- Secretary Johanns announces results of 2006's re-enrollment and extension (REX) offer. Approximately 84 percent of acres under general sign-up contracts set to expire between 2007 and 2010 (27.8 million acres) were extended for 2 or 5 years, or were re-enrolled under new contracts.
- Teresa Lasseter, FSA administrator, announces the 500,000-acre State Acres For Wildlife Enhancement (SAFE) initiative.
- Secretary Johanns announces that USDA will not offer early release from CRP contracts. Planting intentions report indicates producers plan to plant 90.5 million acres of corn, 15 percent more than in 2006. [Producers actually planted 93.6 million acres of corn in 2007.]

April, 2007

- FSA administrator, Teresa Lasseter, announces release of a nationwide study of CRP's effects on water, air, and carbon sequestration benefits.
- Deputy Secretary Chuck Conner announces new CREP agreement with Oklahoma to reduce the flow of nutrients, sediment, and other pollutants in the Spavinaw Lake and Illinois River/Lake Tenkiller watersheds.

May, 2007

- FSA administrator, Teresa Lasseter, announces results of two studies showing CRP's benefits for ducks and grassland birds in the Prairie Pothole region of the Dakotas and Montana.

June, 2007

- Deputy Undersecretary Floyd Gaibler reminds holders of continuous sign-up contracts expiring Sept. 30, 2007 that these lands can be re-enrolled, ensuring that benefits continue. He also noted that 2007 is the 10th anniversary of the beginning of continuous sign-up.

September, 2007

- Acting Secretary Chuck Conner reports that early release from contracts will not be offered at this time, and that USDA will closely monitor the acreage response and market conditions.

THE CONSERVATION RESERVE PROGRAM

Under the Conservation Reserve Program (CRP), the U. S. Department of Agriculture (USDA) establishes contracts with agricultural producers to retire highly erodible and other environmentally sensitive cropland and pasture. During the 10- to 15-year CRP contract period, farmland is converted to grass, trees, wildlife cover, or other conservation uses providing environmental benefits, including improvement of surface water quality, creation of wildlife habitat, preservation of soil productivity, protection of groundwater quality, and reduction of offsite wind erosion damages. The program also assists farmers by providing a dependable source of income. The program was established by the Food Security Act of 1985, and was later amended by the Food, Agriculture, Conservation, and Trade Act of 1990, the Federal Agriculture Improvement and Reform Act of 1996, and the Farm Security and Rural Investment Act of 2002.

The CRP is administered by USDA's Farm Service Agency with technical assistance from USDA's Natural Resources Conservation Service and Forest Service, and from other technical service providers. USDA provides participants with annual rental payments during the contract period and half the cost of establishing conservation covers. There are two primary ways for farmers and ranchers to participate in the CRP: general sign-up and continuous sign-up. Continuous sign-up includes the Conservation Reserve Enhancement Program (CREP) and the Farmable Wetlands Pilot Program.

General Sign-up. Landowners and operators with eligible lands compete nationally for acceptance based on an environmental benefits index (EBI) during specified enrollment periods. Producers may submit offers below soil-specific maximum rental rates to increase their EBI ranking.

Continuous (Non-CREP) Sign-up. Landowners and operators with eligible lands may enroll certain high priority conservation practices, such as filter strips and riparian buffers, at any time during the year without competition. In addition to annual soil rental payment and cost-share assistance, many practices are eligible for additional annual and one-time up-front financial incentives.

Conservation Reserve Enhancement Program (CREP). Under federal-state cooperative conservation efforts, landowners and operators implement projects designed to address specific environmental objectives through targeted CRP enrollments. Sign-up is held on a continuous basis, general sign-up practices may be included, and additional financial incentives are generally provided.

Farmable Wetland Program (FWP). Landowners and operators enroll small non-flood plain wetlands on a continuous sign-up basis.

Emergency Forestry Conservation Reserve Program (EFCRP). Enacted in 2006, EFCRP is designed to assist owners of non-industrial forestland to restore timberland damaged by the Gulf Coast Hurricanes of 2005 (mainly Katrina and Rita).

LEGISLATIVE AND PROGRAMMATIC HISTORY

Title XII of the **Food Security Act of 1985** established the Conservation Reserve Program (CRP) to assist owners and operators in conserving and improving soil, water, and wildlife resources on their farms and ranches by converting highly erodible and other environmentally sensitive cropland and marginal pasture to long-term resource conserving covers. In exchange for annual rental payments and cost-share assistance of up to 50 percent of cover establishment costs, agricultural landowners and operators agree to establish and maintain an approved permanent cover on enrolled acreage for 10 to 15 years. The 1985 Act directed the Department of Agriculture to enroll 40 to 45 million acres by 1990 with a primary goal to reduce soil erosion on highly erodible cropland. Secondary objectives included protecting the Nation's long-run capability to produce food and fiber, reducing sedimentation, improving water quality, fostering wildlife habitat, curbing production of surplus commodities, and providing income support for farmers.

The **Food, Agriculture, Conservation, and Trade Act of 1990** extended CRP through 1995 and expanded types of land eligible for enrollment to include lands that could reduce on-site or off-site threats to water quality if removed from production. Following 1990 Act passage, USDA's Farm Service Agency adopted new rental payment caps based on soil-specific productivity based rental rates, and developed an environmental benefits index (EBI) to rank offers.

The **Federal Agriculture Improvement and Reform Act of 1996** re-authorized CRP enrollment through 2002 and set a maximum enrollment of 36.4 million acres at any one time. The EBI was revised to explicitly include a wildlife benefits component, which was given equal weight with soil erosion and water quality benefits.

Also in 1996, **USDA initiated** enrollment of selected practices, such as filter strips and riparian buffers, on a continuous basis without competition. An annual incentive payment equal to 20 percent of the annual rental rate was provided for many of these practices. In 1997, FSA created the Conservation Reserve Enhancement Program (CREP), further advancing CRP's environmental targeting. CREP authorizes State-Federal conservation partnerships that address specific State and nationally significant water quality, soil erosion, and wildlife habitat concerns related to agriculture. CREP enrollment is held on a continuous basis; enrollment may include both general and continuous sign-up practices, and additional financial incentives are generally provided. An up-front signing payment and a practice incentive payment were established in 2000 to further enhance continuous enrollment, including CREP. Descriptions of practices and corresponding payment provisions are provided in the Appendix.

The **FY 2001 Agriculture Appropriations Act** established the Farmable Wetland Program (FWP), which provided for non-competitive enrollment under continuous sign-up provisions and incentives for up to 500,000 acres of small non-flood plain wetlands and adjacent upland in 6 States (Nebraska, Iowa, Minnesota, North Dakota, South Dakota, and Montana).

The **Farm Security and Rural Investment Act of 2002** extended CRP enrollment authority through 2007 and increased the enrollment cap by 2.8 million acres to 39.2 million acres. Basic cropland eligibility is re-defined to be land that has been cropped or considered cropped in at least 4 of the 6 years preceding enactment. Previously, basic cropland eligibility required cropping in at least 2 of the 5 years preceding sign-up. In addition, the 2002 Act permits managed harvesting of forage (subject to the

requirement that environmental benefits be maintained or enhanced) and requires equal consideration be given for soil erosion, water quality, and wildlife. Practices eligible under marginal pasture criteria, which have no cropping requirement, are expanded to permit appropriate vegetative covers, rather than requiring the land be planted only to trees.

Other changes include extending eligibility to field remnants made infeasible for farming where buffer practices are enrolled, cropland where enrollment would provide water conservation benefits, and land subject to expiring CRP contracts. The 2002 Act also expanded FWP from the original six States to all States and raised the enrollment cap to 1,000,000 acres, while keeping the 100,000 acre State maximum. While maximum wetland size is increased to 10 acres, only 5 acres are eligible to receive rental payments. The per-State 100,000 acre limit may be raised to 150,000 acres after review.

Re-enrollment and extension of 2007- to 2010-expiring contracts. To ensure that CRP's benefits continue without interruption, FSA in 2006 offered holders of contracts set to expire between 2007 and 2010 (28 million acres) the opportunity to re-enroll or extend their contracts. FSA divided expiring contracts into five equal-size categories (quintiles) based on environmental benefits index (EBI) scores of the land under contract. FSA offered the quintile with the highest EBI scores new 10 or 15-year contracts. The 2nd highest quintile were offered 5-year contract extensions, the 3rd highest were offered 4-year extensions, and so forth. This action will preserve farmers' ability to protect America's most sensitive agricultural lands. Holders of approximately 82% of expiring contract acres have been approved for re-enrollment or extension. Updated tables detailing REX results as of February, 2008 are provided in the Appendix.

The **Emergency Supplemental Appropriations Act of 2006** established the Emergency Forestry Conservation Reserve Program (EFCRP). Provides assistance to timberland damaged by the Gulf Coast Hurricanes of 2005 (mainly Katrina and Rita). Acreage enrolled does not count against CRP's 39.2-million-acre enrollment cap.

Reducing Soil Erosion

- Reduced soil erosion by an estimated 470 million tons in FY 2007, compared with pre-CRP erosion rates.
- Protects 25 million acres of highly erodible cropland from erosion, including 10 million acres of cropland with an erodibility index greater than 15.
- Protects 2 million acres from wind erosion in Texas and Washington air quality priority areas.
- Enrollment includes 127,000 acres of grassed waterways, stopping gully formation and preventing sediment and nutrients from impairing surface waters.

Enhancing Water Quality

- Protects surface waters from sediment and nutrient enrichment with enrollment of 1.9 million acres of streamside grass and forested buffers.
- Protects ground water quality by reducing nutrient levels in percolate. Enrollment includes 170,000 acres of cropland within State- or EPA-approved wellhead protection areas.
- Includes 1.1 million acres enrolled in the Chesapeake Bay watershed and Great Lakes basin National conservation priority areas, and 3.4 million acres enrolled in State-designated water quality priority areas.
- Includes 2.1 million acres of specific wetland restoration practices. These wetlands remove nutrients from waters flowing through them.
- In FY 2007, reduced runoff of sediment (207 million tons per year), nitrogen (480 million pounds per year), and phosphorus (108 million pounds per year) from agricultural soils.

Expanding and Improving Wildlife Habitat

- The best measure of a program's effect on wildlife habitat is the response of key wildlife populations to the improved habitat. Four studies of CRP impacts on wildlife populations documented that:
 - In prime pheasant habitat, a 4 percent increase in CRP grassland acres was associated with a 22 percent increase in pheasant counts.
 - In eastern Washington, sage grouse nesting increased in CRP sites as cover matured, and CRP enrollment was associated with halting a sharp decline in sage grouse population.
 - Bobwhite quail numbers were positively related to CRP, particularly for new enrollments in areas with high concentrations of grass.
 - CRP in the Prairie Pothole region greatly benefits duck populations, providing an average of approximately 2.0 million additional ducks per year from 1992 to 2004, a 30% increase in duck population for the region than without CRP. The recent dry weather has reduced this number.
 - Each of the four studies found CRP had positive effects on most bird species.
- All 36.8 million acres enrolled provide wildlife and wildlife habitat benefits. Converting cropland to long-term conservation uses, including grass and tree plantings, wetland restorations, and conservation buffer installations, provide wildlife with feed sources, nesting and brood-rearing opportunities, as well as resting, lay-over, and winter cover.

- Significant wildlife enhancement practices under contract also include:
 - 2.6 million acres of permanent wildlife habitat plantings. Seed mixtures used provide multiple seasonal requirements for wildlife of local or regional concern.
 - 2.1 million acres of wetland and associated buffers.
 - 1.9 million acres of riparian area grass and forested buffers.
 - 1.2 million acres of rare and declining habitat.
 - 53,000 acres of shallow water areas for wildlife.
 - 88,000 acres of wildlife food plots.
 - 163,000 acres of upland bird habitat buffers under the Northern Bobwhite Quail Initiative.
 - 224,000 acres of longleaf pine forests.
 - 36,000 acres of bottomland hardwood tree plantings.
- The 36.8 million acres includes 8.4 million acres enrolled in the Prairie Pothole region providing habitat important for migratory waterfowl, grassland birds, and dependent species; and 5.0 million acres enrolled in State-designated wildlife habitat priority areas.

Sequestering Carbon

- Sequestered 50 million metric tons of carbon dioxide in 2007 in soils and vegetation on enrolled lands. CRP is the largest Federally administered carbon sequestration program.

Restoring and Protecting Wetlands

- 3.3 million acres of wetlands and associated cropland under contract includes:
 - 2.1 million acres of specific wetland restoration practices.
 - 2.7 million acres of cropland bordering and protecting cropped and non-cropped wetlands.
 - 106,000 acres of flood plain wetland restorations and 28,000 acres on non-flood plain and playa lakes restorations.
 - 167,000 acres of small non-flood plain wetlands enrolled in the Farmable Wetland Program.
 - 36,000 acres of bottomland hardwood tree plantings.
-

1/ Acres under contract at end of fiscal year.

2/ Rental payments in a fiscal year apply to acres under contract in the previous fiscal year. Includes miscellaneous adjustments and adjustments for haying/grazing usage.

3/ Cost-share payments are made after cover establishment work is done. For contracts beginning in a given year, payments can occur over several years.

4/ Signing and Practice Incentive payments for continuous sign-up enrollment.

5/ Technical assistance outlays are generally paid to NRCS and FS in the year sign-ups are held. About 90-95 percent of outlays have gone to NRCS and about 5-10 percent to FS.

General sign-ups: 1-13, 15, 16, 18, 20, 26, and 33.

Continuous sign-ups: 14, 17, 19, 21-25, 27, 28, 30, 31, and 35.

Sign-up 21 ended and sign-up 22 began in May 2000.

Sign-up 25 ended and sign-up 27 began in May 2003.

Sign-up 34 is reserved for Emergency Forestry CRP.

Re-enrollment of 2007-expiring general sign-up contracts (2,531,961 acres) will begin in FY 2008, and be recorded under sign-up 32.

1/ Contracts in effect September 30, 2007. For CRP, contract year is the same as fiscal year, which begins October 1.

2/ Not including 362,000 acres under sign-up 35 contracts that begin in FY 2008.

1/ Contracts in effect September 30, 2007.

2/ There can be some overlap, so total CPA acres is less than the sum of State and National CPA acres.

Note: Data from Arizona, Hawaii, Nevada, and Rhode Island not reported because of confidentiality concerns (less than 4 contracts in State). Data from these States are included in the totals.

1/ Includes results of 2006's re-enrollment and extension offer.

2/ Acres under contracts that expired September 30, 2007.

3/ Includes acres enrolled under both general and continuous sign-ups.

4/ Approximately 20 other CRP practices, including wetland restorations, riparian buffers, filterstrips, windbreaks and shelterbelts, and rare and declining habitat.

5/ Totals do not include acres that expired September 30, 2007.

Note: The acreages reflect only contract expirations as of December 2007, not net reductions of enrollment. Cumulative enrollment each year will depend on how many expiring acres are re-enrolled and how many new acres are enrolled under future general or continuous sign-ups.

State and county expiration schedule tables are posted at FSA's CRP Statistics webpage:
<http://www.fsa.usda.gov/FSA/webapp?area=home&subject=copr&topic=css>

35	Continuous	October 1, 2006- September 30, 2007	L, P, R, S, T, U	

1/ See attached eligibility criteria description.

Eligibility Criteria:

- A Land capability classes 6 - 8
- B Land capability classes 2 - 5 with predicted average annual erosion rate greater than 3T
- C Land capability classes 2 - 5 with predicted average annual erosion rate greater than 2T and with gully erosion
- D Land with $EI \geq 8$ and predicted average annual erosion rate greater than T
- E Land for filter strips alongside wetlands, streams, or other water bodies
- F Land for tree planting-eligible when 1/3 of field meets criteria A or Class 2-5 soil with predicted average annual erosion rate greater than 2T
- G Land having evidence of scour erosion caused by out-of-bank water flows
- H Wetland as follows:
 - cropped wetland of at least 6 acres
 - a field of which 1/3 or more is cropped wetland
 - a field of 6 to 9 acres on which wetlands are present
- I Land in designated national conservation priority areas
 - Chesapeake Bay Region
 - Great Lakes Region
 - Long Island Sound Region
- Land in designated State water quality priority areas
 - Public wellhead protection area established by EPA
 - Hydrologic Unit Areas approved by the Secretary
 - Land located in areas designated as Clean Water Act "319" priority areas
- J Lands to be established in specified eligible practices, including filter strips, riparian buffers, windbreaks, grass waterways, and salt tolerant grasses
- Wetland eligibility suspended
- K Land with an $EI \geq 8$, regardless of the predicted annual erosion rate relative to T
- L Eligible for continuous sign-up beginning with sign-up 14:
 - Land identified as suitable for field windbreaks, grass waterways, shallow water areas for wildlife, contour grass strips, shelterbelts, living snow fences, salt tolerant vegetation, filter strips, or riparian buffers
 - Marginal pasture land suitable for riparian buffers devoted to trees.
 - Land within a wellhead protection area established by EPA
- M Land classified as highly erodible land (HEL) according to conservation compliance provisions.
- N Land in designated national conservation priority areas
 - Chesapeake Bay Region
 - Great Lakes Region
 - Long Island Sound Region
 - Prairie Pothole Region
- O Land in designated State water, air, or wildlife quality priority areas
- P Wetlands, including associated acreage, expiring Water Bank lands, and land serving as buffers for non-cropped wetlands
- Q Land suitable for cross wind trap strips
- R Land in the Longleaf Pine national conservation priority area
- S Wetland and buffer acreage according to Farmable Wetland Program provisions
- T Restoration of flood plain wetland, including bottomland hardwood tree plantings
- U Establishment of upland bird habitat buffers
- V Restoration of non-flood plain wetland and playa lakes

CP37	Duck Habitat (Pairie Pothole area)	Continuous	SRR	\$4/Ac.	No	No	5,260

1/ Practices enrolled under CREP may be eligible for additional incentives.

2/ General sign-up practices may be enrolled under certain CREP agreements and may be eligible for additional financial incentives.

3/ Soil rental rates (SRR) are soil-specific maximum rental payment rates for predominant soils (up to 3) for the land offered. Beginning with general sign-up 16, producers offering land for general sign-up enrollment requesting rental payments below the maximum receive higher EBI scores. Participants in continuous sign-up receive the maximum allowable rate. Annual incentives of 20% and 10% of annual rental rate are provided as indicated. Practices enrolled under CREP may be eligible for additional incentives.

4/ For general sign-up practices, up to \$4/acre is allowed. For continuous practices, grass plantings are allowed up to \$4/acre, tree plantings are allowed up to \$7/acre. For CP21 and CP22, if livestock exclusion practices (alternative water sources or fencing) are implemented, up to \$9/acre is allowed, and if livestock exclusion is accompanied by tree plantings, up to \$10/acre is allowed.

5/ Signing incentive payments (SIP) implemented in June 2000 are one-time up-front bonus payments of \$100 per acre.

6/ Practice incentive payments (PIP) implemented in June 2000 equal 40-percent of practice installation cost.

7/ For marginal pasture, a county-specific flat rate is used.

Enduring (post-contract) Benefits							
Total	50	50	50	50	50	50	50
Air Quality Benefits							
Wind erodibility	25	25	25	25	25	25	25
Wind erosion soils	n.a.	5	5	5	5	5	5
Air quality zone	n.a.	5	5	5	5	5	5
Carbon sequestration	n.a.	n.a.	n.a.	n.a.	10	10	10
Total	25	35	35	35	45	45	45
Conservation Priority Area Benefits							
Total	25	25	25	25	n.a.	n.a.	n.a.
Cost							
Rental payment amount 1/ = a*(1-(Bid amount/b))	a=190 b=165	a=125 b=165	a=125 b=165	a=125 b=165	a=125 b=185	a=125 b=185	a=125 b=204
Cost-share	10	10	10	10	10	10	10
Amount below maximum rent	n.a.	15	15	15	15	15	15
Total	200	150	150	150	150	150	150
Total EBI Points							
Environmental components	400	410	410	410	395	395	395
Environmental+cost components	600	560	560	560	545	545	545
EBI cut-off for acceptance	259	247	245	246	269	248	242

1/ a = points for cost
b = maximum bid allowed

For questions about this summary, contact Alex Barbarika at 202-720-7093 or at Alexander.Barbarika@wdc.usda.gov. This and prior annual and monthly summaries are posted at <http://www.fsa.usda.gov/FSA/webapp?area=home&subject=copr&topic=css>

Additional information on the Conservation Reserve Program is available from:

Farm Service Agency, United States Department of Agriculture, STOP 0513
1400 Independence Ave. SW, Washington, D.C. 20250-0513
or from the FSA website at <http://www.fsa.usda.gov/>

The U.S. Department of Agriculture (USDA) prohibits discrimination in all its programs and activities on the basis of race, color, national origin, sex, religion, age, disability, and where applicable, sex, marital status, familial status, parental status, religion, sexual orientation, genetic information, political beliefs, reprisal, or because all or part of an individual's income is derived from any public assistance program. (Not all prohibited bases apply to all programs.) Persons with disabilities who require alternative means for communication of program information (Braille, large print, audiotape, etc.) should contact USDA's TARGET Center at (202) 720-2600 (voice and TDD). To file a complaint of discrimination, write USDA, Director, Office of Civil Rights, 1400 Independence Ave., SW, Washington, D.C. 20250-9410 or call (800) 795-3272 (voice) or (202)-720-6382 (TDD). USDA is an equal opportunity provider and employer.
