# INCIDENT MANAGEMENT SITUATION REPORT <br> MONDAY AUGUST 11, 2003 - 0530 MDT <br> NATIONAL PREPAREDNESS LEVEL 5 

## CURRENT SITUATION:

Initial attack activity was heavy in the Northern Rockies, Eastern Great Basin and Southern California Areas, moderate in the Rocky Mountain Area, and light elsewhere. Nationally, 305 new fires were reported. 18 new large fires were reported, seven in the Northern Rockies Area, six in the Eastern Great Basin Area, two each in the Northwest and Rocky Mountain Areas, and one in the Southern California Area. Two large fires were contained, one each in the Eastern Great Basin and Northwest Areas. Very high to extreme fire indices were reported in Alaska, Arizona, California, Colorado, Hawaii, Idaho, Montana, Nevada, New Mexico, Oklahoma, Oregon, South Dakota, Texas, Utah, Washington and Wyoming.

## NORTHERN ROCKIES AREA LARGE FIRES:

An Area Command Team (Greenhoe) has been ordered to manage the Fish Creek, Cooney Ridge, Bowles Meadow, North Howard, Cherry Creek and Gold 1 incidents on the Lolo National Forest, Bitterroot National Forest and the Southwest Land Office, Department of Natural Resources and Conservation. An Area Command Team (Mann) is assigned to manage the Wedge Canyon, Robert, Trapper Creek Complex, Little Salmon Creek Complex (WFU) and Ross Creek fires on the Flathead and Kootenai National Forests, and the Glacier National Park.

CHERRY CREEK, Lolo National Forest. A Type 2 Incident Management Team (Swope) is assigned. This fire is in lodgepole pine with heavy ground fuels, 12 miles southeast of Thompson Falls, MT. Extreme fire behavior with running crown fires and spotting over one quarter mile was observed. Crews disengaged from suppression activities yesterday due to safety concerns. Structure protection is in place for 150 residences.

BEAVER LAKE, Clearwater National Forest. A transfer of command from Chrisman's Type 2 Incident Management Team to Frye's Type 1 Incident Management Team will occur on 8/12 at 0600. This incident, comprised of Beaver Lake, Siah Lake, Spruce Lake and Spruce Creek, is 19 miles southwest of Missoula, MT. Individual tree torching, spotting up to one mile and crowning runs were observed in timber and logging slash. Lolo Motorway was closed and evacuated.

FISH CREEK, Lolo National Forest. A Type 2 Incident Management Team (Benes) is assigned. This fire is in steep, rocky terrain, 24 miles west of Missoula, MT.

HOBBLE, Southern Land Office, Montana Department of Natural Resources and Conservation. A Type 2 Incident Management Team (Gray) will assume command tomorrow. This fire is five miles northeast of Greycliff, MT. Very active fire behavior was observed in ponderosa pine with dead and down, grass and sage. Structure protection is in place for 70 residences. 50 residences have been evacuated. Five additional outbuildings have been confirmed lost.

GOLD 1, Bitterroot National Forest. A Type 2 Incident Management Team (Philbin) has been ordered. This fire is nine miles northeast of Corvallis, MT. Group torching was observed in lodgepole pine and Douglas fir.

WEDGE CANYON, Flathead National Forest. A Type 1 Incident Management Team (Hart) is assigned. This fire is in sub-alpine fir with down fuels, 20 miles east of Eureka, MT. Interior torching with short crown runs and large scale crow runs to the east were observed. Structure protection is in place for 40 residences.

ROBERT, Flathead National Forest. A Type 1 Incident Management Team (Ferguson) is assigned. This fire is in timber, eight miles north of Columbia Falls, MT. Running and spotting were observed. The fire escaped containment lines on the north and northeast flanks and has burned up to the Moose fire of 2001; it has also burned across the Camas Road within Glacier National Park, the North Fork Road and the North Fork of the Flathead River. Crews disengaged from suppression activities yesterday due to safety concerns. Structure protection is in place for six commercial properties.

TRAPPER CREEK COMPLEX, Glacier National Park. Two Type 1 Incident Management Teams (Ferguson and Hart) are sharing management responsibility for this complex. The complex, comprised of the Trapper Creek, Wolf Gun, Paul Bunyan and Trout fires, is in mixed conifer with dead and down fuels, 45 miles northeast of Kalispell, MT. Slow spreading surface fire with occasional torching and uphill runs was observed. Structure protection is in place for three commercial properties. The major road through Glacier National Park (Going to the Sun Highway from West Glacier Gate to Logan Pass) is open without restrictions.

SLIMS, Nez Perce National Forest. A Type 1 Incident Management Team (Mortier) is assigned. This fire is in ponderosa pine and mixed conifer, 35 miles east of Grangeville, ID. Moderate to high fire behavior with uphill runs within the perimeter was observed. Slims assumed responsibility for a new start, Poet fire, which is in the Poet Creek drainage. The Poet fire is located in a wildland fire use unit and will be managed using a confine strategy.

PIONEER LAKE, Gallatin National Forest. This fire is in timber and logging slash, 15 miles south of Gallatin Gateway, MT.

CLEAR/NEZ COMPLEX, Clearwater National Forest. A Fire Use Management Team (Cones) is assigned. This lightning-caused Wildland Fire Use complex, comprised of 62 Creek, Divide, Freeze Out, McConnell North, McConnell Northeast, Ranger Lake, Toboggan Creek and Rock Garden fires, is six miles southeast of Powell Junction, ID. The complex is being managed to accomplish resource objectives. Individual tree torching with significant spread was observed in sub-alpine fir and lodgepole pine.

CRAZY HORSE, Flathead National Forest. This fire is 10 miles northeast of Saint Ignatius, MT. Extreme fire behavior with long range spotting was observed in mixed conifer. Structure protection is in place for 20 residences.

LANDE, Crow Agency, Bureau of Indian Affairs. This wind-driven fire is in grass and wheat, seven miles northeast of Pryor, MT.

FRANK, Yellowstone National Park. This lightning-caused Wildland Fire Use fire is on an island in Yellowstone Lake, 44 miles southeast of Gardiner, MT. The fire is being managed to accomplish resource objectives. Extreme fire behavior with rapid rates of spread, short range spotting and crown fires was observed. The fire has burned the entire island and is fully contained by Yellowstone Lake. This fire is being monitored from shore and by aerial reconnaissance. This will be the last narrative report unless significant activity occurs.

BLACKWALL, Beaverhead/Deerlodge National Forest. This fire is 17 miles west of Wisdom, MT. No new information was received.

BIG CREEK, Bitterroot National Forest. This fire is in timber, four miles northwest of Victor, MT. No new information was received.

## EASTERN GREAT BASIN AREA LARGE FIRES:

SOUTH FORK, Boise National Forest. This fire is in grass, brush and timber, 25 miles northeast of Cascade, ID. Active fire behavior with spotting, torching and long ridge runs was observed. Structure protection is in place for eight residences and one commercial building. Thunderbolt Lookout has been evacuated.

HALL, Payette National Forest. A Type 2 Incident Management Team (Broyles) is assigned. This fire is in grass, brush and timber with portions of heavy understory, seven miles north of Council, ID. Active fire behavior with torching, spotting and short crown runs was observed. Structure protection is in place for six residences. Two outbuildings have been confirmed lost.

FALCONBERRY, Salmon-Challis National Forest. This fire is in fir and spruce, ten miles east of Stanley, ID. Extreme fire behavior with rapid rates of spread was observed. Falconberry Guard Station has been evacuated and Sleeping Deer Road is closed.

BLACKTAIL, Grand Teton National Park. This fire is in grass and sagebrush, three miles south of Moose, WY. Extreme fire behavior with high rates of spread was observed. A local campground has been evacuated.

NORTH FORK LICK, Payette National Forest. A Type 2 Incident Management Team has been ordered. This complex, comprised of the Grimmet and North Fork Lick fires, is in sub-alpine fir with dead and down fuels, 18 miles northeast of McCall, ID. The fires are being managed in a confine/contain strategy. Active fire behavior with group torching, spotting and crown runs was observed.

TIMMERMAN, Upper Snake River District, Southern Idaho Area, Bureau of Land Management. This fire is in grass and sagebrush, 25 miles north of Shoshone, ID. Extreme fire behavior with rapid rates of spread was observed. Structure protection is in place for 15 residences and four commercial properties.

FOOTHILLS, Upper Snake River District, Southern Idaho Area, Bureau of Land Management. This fire is in grass and sagebrush, two miles south of Picabo, ID. Rapid rates of spread due to light fuels and steep terrain were observed. Structure protection is in place for ten residences and three commercial properties.

EAST HANSEL VALLEY, Northwest State, Utah State Division of Forestry, Fire and State Lands. This fire is one half mile west of Howell, UT. Extreme fire behavior with rapid rates of spread was observed. Structure protection is in place for three residences. Two outbuildings have been confirmed lost.

CORRAL, Salt Lake Field Office, Bureau of Land Management. This fire is 20 miles north of Grantsville, UT. Minimal fire behavior was observed in timber and grass. The fire will be monitored by aircraft.

LOST PACKER COMPLEX, Salmon-Challis National Forest. This complex, comprised of the Waugh, Upper West Horse and Horse fires, is 36 miles northwest of Salmon, ID. Creeping fire with isolated torching and spotting was observed in sub-alpine fir, mixed conifer and grass.

## NORTHWEST AREA LARGE FIRES:

FAWN PEAK COMPLEX, Okanogan-Wenatchee National Forest. A Type 1 Incident Management Team (Lohrey) is assigned. This complex is comprised of the Fawn Peak, Sweetgrass and Farewell fires. The Farewell fire is in sub-alpine fir with heavy dead and down timber, 13 miles northwest of Winthrop, WA. Minimal fire activity was observed.

NORTH ZONE COMPLEX, Mt. Baker-Snoqualmie National Forest. A Type 2 Incident Management Team (Johnson) is assigned. This fire is in heavy timber, six miles southeast of Darrington, WA. Creeping fire in heavy ground fuel was observed.

BLACK CANYON, Washington Department of Natural Resources. A Washington Intreagency Incident Management Team (Holloway/Reed) is assigned. This fire is in timber, five miles southeast of Northport, WA.

## ROCKY MOUNTAIN AREA LARGE FIRES:

RAWHIDE, Casper Field Office (East Zone), Bureau of Land Management. This fire is in ponderosa pine and grass, eight miles south of Lusk, WY. Surface fire with group torching and short range spotting was observed. Structure protection is in place for one residence and one commercial property.

BIG SPRING, Casper Field Office (East Zone), Bureau of Land Management. A Type 2 Incident Management Team (Blume) is assigned. This fire is in ponderosa pine, pinyon pine and juniper, 20 miles southwest of Buffalo, WY. Minimal fire behavior was observed.

THOMPSON SPRINGS, White River Field Office, Bureau of Land Management. This fire is in juniper and pinyon pine, 15 miles east of Rangely, CO. Minimal fire activity was observed.

MIDDLE GATE, Johnson County. This fire is in grass, juniper and ponderosa pine, 15 miles west of Kaycee, WY. Extreme fire behavior with torching, crowning and spotting was observed.

## SOUTHERN AREA LARGE FIRES:

JOHNSON RANCH, Texas Forest Service. This fire is in brush and tall grass, 40 miles northeast of Abilene, TX. Burn out operations have been successful and will continue today.

ROCHELLE, Texas Forest Service. This fire is in heavy brush and grass, 75 miles northwest of Austin, TX. Thunder cells over the fire produced gusty winds.

DEEP MARSH SP, Anahuac National Wildlife Refuge. This fire is 45 miles southeast of Houston, TX.

YELLOW RAIL 1, Anahuac National Wildlife Refuge. This fire is 45 miles southeast of Houston, TX. Minimal fire behavior was observed. The fire area received rain yesterday.

SQF = Sequoia National Forest

## OUTLOOK:

Red Flag Warnings: For gusty winds and low humidity in the southern panhandle of Idaho and most of western Montana.

Fire Weather Watches: For gusty winds, low humidity and isolated dry lightning in southwest Montana.

Weather Discussion: The weather pattern continues to feature the upper low parked off the Northwest Coast and a strong ridge of high pressure from New Mexico through the Dakotas. This leaves most of the West in a south to southwest flow pattern. Monsoon moisture continues to filter across Arizona, Utah, Colorado and New Mexico.

| Geographic Area Weather | High <br> Temperatures | Minimum Relative Humidity | Wind |
| :---: | :---: | :---: | :---: |
| NORTHERN ROCKIES AREA <br> Mainly isolated dry thunderstorms developing over southwest and south-central Montana, otherwise becoming partly cloudy over western portions. | West of the Divide: 85 to 100 East of the Divide: 85 to 105 | West of the Divide: 5 to 15\% East of the Divide: 10 to 20\% | West of the Divide: becoming southwest 10 to 20 with gusts East of the Divide: southwest to southeast 5 to 15 mph , south 10 to 20 mph , gusts to 30 mph eastern Montana |
| EASTERN GREAT BASIN AREA Idaho, Bridger-Teton: isolated dry thunderstorms central and west, widely scattered to scattered wet thunderstorms east. <br> Utah, Arizona Strip: widely scattered wet and dry thunderstorms. | Idaho, Bridger- <br> Teton: 68 to 85 mountains, 85 to 98 valleys. <br> Utah and Arizona Strip: 72 to 92 higher elevations, 90 to 107 valleys. | Idaho, Bridger-Teton: 12 to $26 \%$ mountains, 4 to 12\% valleys. <br> Utah, Arizona Strip: 20 to 40\% mountains, 8 to 20\% valleys. | Idaho, Bridger-Teton: southwest 15 to 25 mph . Utah, Arizona Strip: upslope/up valley 5 to 10 mph, southwest 10 to 20 exposed areas and ridges. |
| ROCKY MOUNTAIN AREA Isolated to widely scattered thunderstorms (some dry) over Wyoming. Widely scattered to scattered thunderstorms over the Colorado mountains. Isolated storms elsewhere. | Highs, 90 to 96 over lower elevations of the Rocky Mountain Area. High elevations 75 to 85 . | 10 to $25 \%$ over Wyoming and lower elevations of western Colorado, with 20 to $35 \%$ elsewhere. | Southeast 10 to 20 mph Black Hills region and variable 5 to 18 mph elsewhere. |
| SOUTHERN CALIFORNIA AREA <br> Patchy morning low clouds and fog coastal areas, otherwise mostly sunny. | 75 to 85 coastal areas. <br> 80 to 105 <br> mountains. <br> 95 to 105 valleys. <br> 95 to 105 upper desert. <br> 105 to 115 low desert. | 10 to $20 \%$ desert. <br> 10 to $25 \%$ mountains. <br> 10 to $25 \%$ valleys. <br> 40 to 55\% coast. | South to southwest 10 to 20 mph with higher gusts in the afternoon. |
| NORTHERN CALIFORNIA AREA Sunny. Areas of morning fog and low clouds along the coast. | Mid 60s to mid 70s near the coast 80s inland with a few lower 90s. | 8 to $15 \%$ east of the Sierra Cascade Crest and 22 to $20 \%$ west of the Crest. | South to west 6 to 12 mph in the afternoon with gusts 18 to 22 mph west of the Sierra Cascade Crest and 24 to 33 mph east of the Crest. |

## POWER LINE SAFETY

Operating near or under power lines poses unique hazards, and the following precautions should be followed to reduce potential equipment damage or injury:

- If possible, the power company should deactivate lines in the fire area.
- Don't operate heavy equipment under power lines.
- Don't use right-of-ways as a jump or cargo drop spot.
- Don't drive with long antennas under power lines.
- Don't stand near power lines during retardant drops.
- Don't park under power lines. The magnetic field around energized power lines can induce an electrical charge in ungrounded vehicles or equipment. This charge can shock anyone who touches the vehicle.
- Don't apply straight stream to power lines.
- All personnel should be cautioned that smoke may become charged and conduct the electrical current. Deactivated transmission and distribution lines may continue to pose a hazard due to induction.
- If power lines fall on your vehicle, DON'T leave the vehicle until the power company arrives. If the vehicle is on fire or fire is near, jump clear, don't hang on, keep feet together, and bunny hop away.
