Dear FCC:

Please do not allow this merger to go through. I've been an XM subscriber since 2004, and I honestly cannot see or understand how this proposed merger benefits people like me. The first thing I noticed as I read about this merger was "improved" pricing. The only improvement I noticed was an improvement that benefits the company, not the customer. As I read it, the price I pay for the service I currently am signed up for will go up. In my opinion, this is unacceptable.

Recently, I've read press releases about how 90% of XM subscribers are excited about the potential merger. Where are these figures coming from? None of the subscribers I know were ever asked or contributed to any polls. All of the ones with whom I've discussed the merger seem to agree with me.

Creating one satellite radio provider creates the same type of monopoly that the government has fought against for years. Your agency fought against the DirecTV-Dish Network merger, and I hope that you will do the same with this proposed merger.

Thanks for your time and attention.

Sincerely,

David Zamora
