| 15a. | <b>Warranty Provisions.</b> The warranty offered by Wyle Laboratories, Inc., Telemetry and Data Systems complies with the provisions as stated in the following paragraphs: |  |
| 15b. | SOFTWARE: Wyle Laboratories, Inc., Telemetry and Data Systems (hereinafter  |  |

known as “the supplier”) warrants that the software delivered with the above system will operate in accordance with the Operator’s Manual for a period of one year (1) from and after receipt by the purchaser. The supplier will correct any programming error preventing such operation upon written notice from the purchaser within the established period of warranty stated above. Software upgrades will be provided during the maintenance period.

- 15c. TELEPHONIC SUPPORT: Telephonic support will be provided during normal working hours 8:00 am to 5:00 pm Eastern Standard Time, Monday through Friday, excluding holidays. Response time will be within one business day of initial call. Service representative will attempt to identify specific problem and recommend corrective action to be attempted by operator.
- 15d. REPAIR/REPLACEMENT SERVICE: A system will be diagnosed to the board level by the customer utilizing the diagnostic procedures specified within the User’s Manual. The customer will then place a service call to the customer service representative specified above and identify the failed module by board name and serial number. For standard non-custom items, Service Representative will ship a new or repaired board as soon as possible. Service representative support will be provided via telephone to install module if required.
- 15e. REPAIR/REPLACEMENT SERVICE (continued)  
Following replacement of the module, the customer will run the diagnostics procedures to ensure working status. Customer will return failed module to the above stated address referencing the RMA number (see shipping instructions for assignment of RMA number). In the case of an undiagnosable failure or catastrophic failure, the original system will be returned to supplier for engineering review and system repair. An RMA number will be required. Supplier will attempt to provide a back-up system to customer to ensure up time. It should be recognized that the system will perform the minimum requirements only.
- 15f. ENGINEERING IMPROVEMENTS: The supplier may, from time to time, make engineering improvement modifications which it deems necessary to incorporate in Customer’s products. Such modifications will be performed at supplier’s expense on a mutually agreed-upon schedule or coincident with repair service or preventative maintenance.
- 15g. CUSTOMER’S RESPONSIBILITIES: The customer will follow routine operator procedures as specified in the supplier’s operating manual and is responsible for maintaining files for the data or programs. The customer is also responsible for the security of its proprietary and confidential information.
- 15h. SHIPPING: When return, correction, or replacement is required, the contractor shall be responsible for all costs attendant to the return, correction, or replacement of the nonconforming supplies. Any removal in connection with the above shall be done by the contractor at its expense. However, the contractor’s liability for the transportation charges shall not exceed an amount equal to the cost of transportation by the usual commercial method of shipment between the place of delivery specified in the contract and the contractor’s plant, and return. A Return Material Authorization (RMA) number will be assigned to the customer,

and must be referenced on all correspondence.

- 15i. NOTICE OF DEFECT: Purchaser shall notify supplier in writing within 30 days after discovery of defect.
- 16. **Export packing charges** Open Market.
- 17. **Terms and conditions of Government credit card acceptance** Unlimited dollar threshold.
- 18. **Terms and conditions of rental, maintenance, and repair** Not applicable.
- 19. **Terms and conditions of installation** Installation services will be provided, where such services are offered by Wyle Laboratories, Inc., Telemetry and Data Systems and desired by the Government, at prices not higher than those charged to any commercial customer.
- 20a. **Terms and conditions of repair parts** Not applicable. Wyle Laboratories, Inc., Telemetry and Data Systems will make available any parts, service manuals, schematics, and similar repair and maintenance information to local suppliers of repair, maintenance and rehabilitation services that are awarded a General Services Administration (GSA) contract for maintenance, repair or overhaul of Government owned equipment. The parts, service manuals, schematics and similar maintenance information shall be made available at reasonable prices which are not higher than those normally charged to any customer, and in sufficient quantities to fulfill the requirements of GSA repair and maintenance contract.
- 20b. **Terms and conditions for any other service** Not applicable.
- 21. **List of service and distribution points** Wyle Laboratories, Inc., Telemetry and Data Systems (see cover).
- 22. **List of participating dealers** Not applicable.
- 23. **Preventative maintenance** Not applicable.
