

§ 303.8

16 CFR Ch. I (1-1-08 Edition)

any long chain synthetic polymer composed of at least 85 percent by weight of vinyl chloride units ($-\text{CH}_2-\text{CHCl}-$).

(o) *Metallic*. A manufactured fiber composed of metal, plastic-coated metal, metal-coated plastic, or a core completely covered by metal.

(p) *Glass*. A manufactured fiber in which the fiber-forming substance is glass.

(q) *Anidex*. A manufactured fiber in which the fiber-forming substance is any long chain synthetic polymer composed of at least 50 percent by weight of one or more esters of a monohydric alcohol and acrylic acid, $\text{CH}_2=\text{CH}-\text{COOH}$.

(r) *Novoloid*. A manufactured fiber containing at least 85 percent by weight of a cross-linked novolac.

(s) *Aramid*. A manufactured fiber in which the fiber-forming substance is a long-chain synthetic polyamide in which at least 85 percent of the amide

linkages are attached directly to two aromatic rings.

(t) *Sulfar*. A manufactured fiber in which the fiber-forming substance is a long chain synthetic polysulfide in which at least 85% of the sulfide ($-\text{S}-$) linkages are attached directly to two (2) aromatic rings.

(u) *PBI*. A manufactured fiber in which the fiber-forming substance is a long chain aromatic polymer having reoccurring imidazole groups as an integral part of the polymer chain.

(v) *Elastoester*. A manufactured fiber in which the fiber-forming substance is a long-chain synthetic polymer composed of at least 50% by weight of aliphatic polyether and at least 35% by weight of polyester, as defined in 16 CFR 303.7(c).

(w) *Melamine*. A manufactured fiber in which the fiber-forming substance is a synthetic polymer composed of at least 50% by weight of a cross-linked melamine polymer.

(x) *Fluoropolymer*. A manufactured fiber containing at least 95% of a long-chain polymer synthesized from aliphatic fluorocarbon monomers.

(y) *PLA*. A manufactured fiber in which the fiber-forming substance is composed of at least 85% by weight of lactic acid ester units derived from naturally occurring sugars.

§ 303.8 Procedure for establishing generic names for manufactured fibers.

(a) Prior to the marketing or handling of a manufactured fiber for which no generic name has been established or otherwise recognized by the Commission, the manufacturer or producer thereof shall file a written application with the Commission, requesting the establishment of a generic name for such fiber, stating therein:

(1) The reasons why the applicant's fiber should not be identified by one of the generic names established by the Commission in § 303.7 of this part;

(2) The chemical composition of the fiber, including the fiber-forming substances and respective percentages thereof, together with samples of the fiber;

(3) Suggested names for consideration as generic, together with a proposed definition for the fiber;

(4) Any other information deemed by the applicant to be pertinent to the application, including technical data in the form of test methods;

(5) The earliest date on which the application proposes to market or handle the fiber in commerce for other than developmental or testing purposes.

(b) Upon receipt of the application, the Commission will, within sixty (60) days, either deny the application or assign to the fiber a numerical or alphabetical symbol for temporary use during further consideration of such application.

Federal Trade Commission

§ 303.10

(c) After taking the necessary procedure in consideration of the application, the Commission in due course shall establish a generic name or advise the applicant of its refusal to grant the application and designate the proper existing generic name for the fiber.

[24 FR 4480, June 2, 1959, as amended at 63 FR 7518, Feb. 13, 1998]

§303.9 Use of fur-bearing animal names and symbols prohibited.

(a) The advertising or the labeling of a textile fiber product shall not contain any names, words, depictions, descriptive matter, or other symbols which connote or signify a fur-bearing animal, unless such product or the part thereof in connection with which the names, words, depictions, descriptive matter, or other symbols are used is a fur product within the meaning of the Fur Products Labeling Act.

(b) Subject to the provisions of paragraph (a) of this section and §303.6 of this part, a textile fiber product shall not be described or referred to in any manner in an advertisement or label with:

(1) The name or part of the name of a fur-bearing animal, whether as a single word or a combination word, or any coined word which is phonetically similar to a fur-bearing animal name, or which is only a slight variation in spelling of a fur-bearing animal name or part of the name. As for example, such terms as "Ermine," "Mink," "Persian," "Broadtail," "Beaverton," "Marmink," "Sablelon," "Lam," "Pershian," "Minx," or similar terms shall not be used.

(2) Any word or name symbolic of a fur-bearing animal by reason of conventional usage or by reason of its close relationship with fur-bearing animals. As for example, such terms as "guardhair," "underfur," and "mutation," or similar terms, shall not be used.

(c) Nothing contained herein shall prevent:

(1) The nondeceptive use of animal names or symbols in referring to a textile fiber product where the fur of such animal is not commonly or commercially used in fur products, as that term is defined in the Fur Products La-

beling Act, as for example "kitten soft", "Bear Brand", etc.

(2) The nondeceptive use of a trademark or trade name containing the name, symbol, or depiction of a fur-bearing animal unless:

(i) The textile fiber product in connection with which such trademark or trade name is used simulates a fur or fur product; or

(ii) Such trademark or trade name is used in any advertisement of a textile fiber product together with any depiction which has the appearance of a fur or fur product; or

(iii) The use of such trademark or trade name is prohibited by the Fur Products Labeling Act.

[24 FR 4480, June 2, 1959, as amended at 28 FR 722, Jan. 16, 1963]

§303.10 Fiber content of special types of products.

(a) Where a textile product is made wholly of elastic yarn or material, with minor parts of non-elastic material for structural purposes, it shall be identified as to the percentage of the elastomer, together with the percentage of all textile coverings of the elastomer and all other yarns or materials used therein.

Where a textile fiber product is made in part of elastic material and in part of other fabric, the fiber content of such fabric shall be set forth sectionally by percentages as in the case of other fabrics. In such cases the elastic material may be disclosed by describing the material as elastic followed by a listing in order of predominance by weight of the fibers used in such elastic, including the elastomer, where such fibers are present by 5 per centum or more with the designation "other fiber" or "other fibers" appearing last when fibers required to be so designated are present. An example of labeling under this paragraph is:

Front and back non-elastic sections:

50 percent Acetate.

50 percent Cotton.

Elastic: Rayon, cotton, nylon, rubber.

(b) Where drapery or upholstery fabrics are manufactured on hand-operated looms for a particular customer after the sale of such fabric has been consummated, and the amount of the
