### § 30.8 Additional information required on Shipper's Export Declaration for In-Transit Goods (Form 7513).

In addition to the information required under § 30.7, the following information shall be shown on the Shipper's Export Declaration for In-Transit Goods, Form 7513:

rectly aligned horizontally, and clearly distinguishable from information applying to other Schedule B items on the same declaration. However, where merchandise covered by a single Schedule B classification is moving under more than one general license, under more than one validated export license, or under a validated export license which shows two or more listings for the same Schedule B number, a separate item shall be shown on the Shipper's Export Declaration for each license or for each listing on the license.<sup>5</sup> For merchandise moving under validated license, information required by export control regulations as to export license number and expiration date, and information as to whether the export is a partial or complete shipment against the license, shall be shown immediately below the corresponding description of commodities on the Shipper's Export Declaration. Where two or more items are classified under the same Schedule B number and moving under the same general license, or where no license is required, the quantities, values and shipping weights of such invoice items, wherever practical, should be combined and the information shown on a single horizontal line of the Shipper's Export Declaration. Commodities of U.S. manufacture incorporating foreign components shall be reported under the Schedule B number for the exported commodity, and a separate item shall not be shown for the imported components. If the exporter desires to record the imported components separately on the export declaration for purposes of identification with a temporary import bond, a notation may be made in the "Description of Commodities" column as to the imported components that have been incorporated in the exported commodity. In the preparation of the export declaration, shippers shall conform to the line spacing on all copies.
