To Whom It May Concern,

I am an Oregon taxpayer and avid fly fisherman. The riparian habitat in Western Oregon is of great importance to me from an aesthetic, biological, and recreational point of view.

A proposal that you are currently considering is detrimental to water quality and biological diversity in the riparian corridors.

I urge you to maintain the highest protection of aquatic conditions, as described in the current Northwest Forest Plan on BLM lands.

Please keep me informed of your decision.

Sincerely,

A handwritten signature in black ink, appearing to read "Kirston Koths", with a long horizontal line extending to the right.

Kirston Koths, Ph.D.
