\* *This will remain a local decision whether or not to class these materials as historic sources in KBR,*

*or as parts of the official acts of the Holy See in KBU (Law of the Roman Catholic Church. The Holy See)*

\*\* *Concordats have been classed traditionally with "Secular Ecclesiastical law" in the schedules or tables of the signatory jurisdiction, e.g. KK5520+ (Law of Germany; Secular ecclesiastical law; Concordats)*

\*\*\* *The classification of individual legislative and other legal acts, facts, events, etc., usually follows the principle underlying the LCC: distribution by subject.*

*For Canon law, it may be a good idea to have these materials arranged by date, be it here in KBR or in KBU regardless of subject and by date.*

*Acts, etc. of bodies of the Curia, e.g. Congregations, which continue into the 20th cent., should class in KBU.*

## KBR History of Canon Law - Continued

**Note:** From here on, the two manuscripts are developed parallel with matching numbers, leaving several options for local consideration:

(1) If the (KBR 2224 following) topical part would be merged at this point with KBU (Law of the Roman Catholic Church. The Holy See), the topical section in KBR (History of Canon) law would have only bracketed numbers.

The KBU topical section from this point on would have the "historic" aspects of a subject merged with the subject and could be brought out by a position "History" in the form division table K22 applied to KBU.

Expansion would occur from this point on only in KBU tracking doctrinal developments.

(2) If the topical part KBR2224+ is fully applied, the numbers could be used

(a) for present day works on subjects and periods of Canon law only, while all works up to ca. 1900 are grouped in the author/title files of the section "Sources"; this was the treatment chosen for schedule KJA (Roman law).

Another possibility is to use the numbers

(b) for topical works by all post-Tridentinum canonists up to ca. 1900 (thus mixing retrospectively present day commentary and contemporary (early) writing,

including works born by the 19<sup>th</sup> century civil as well as the canon codification movement).

The following section is a good example for alternative (b):
