

**SUPPLEMENTARY INFORMATION:** 1. The permit applicant, Alaska Natural Gas Development Authority (ANGDA), is proposing to construct a 460-mile pipeline with a 20- to 24-inch hard pipe bidirectional line from Beluga, AK to Delta Junction, AK and a 10- to 15-inch soft line from Delta Junction to North Pole/Fairbanks, AK to deliver natural gas from the Beluga gas fields to interior Alaska. The proposed route and adjacent service area would begin in Beluga, AK, continuing through the community of Palmer, AK then easterly along the Glenn Highway, with a deviation northwardly through Chitna Pass to Glennallen, AK. It would then turn north following the Richardson Highway paralleling the Trans Alaska Pipeline System (TAPS) route to the city of Delta Junction, AK. The pipe would then turn west continuing along the TAPS route to a connection point near the Golden Valley Electric Association (GVEA) power plant in North Pole, AK. The pipeline would be buried throughout the corridor. Three compressor stations are proposed at Palmer, Glennallen, and North Pole, AK.

2. The right of way for the proposed pipeline corridor is owned by numerous entities. The largest land owners along the proposed route include the Bureau of Land Management, the Military (Fort Greely, Fort Wainwright and Eielson Air Force Base), Native Allotments/Corporations, private land owners and the State of Alaska.

3. Additional alternatives to the applicant's proposal include four routing segments variations and one design alternative (A map depicting the location of each alternate route is available at the EIS Web site):

a. *Route Alternative 1:* Utilization of a Chugach Electric easement from Beluga, AK across the Susitna River to Palmer, AK rather than the ENSTAR pipeline route. This route would deviate northeastwardly from the proposed route west of the Susitna River and would realign with the proposed route south of Knik, AK.

b. *Route Alternative 2:* Employ full utilization of the Glenn Highway route from Sutton, AK to Eureka, AK rather than deviating through Chitna Pass north of Chickaloon, AK. This route would deviate from the proposed route at Sutton, AK and follow the Glenn Highway, realigning with the proposed route at approximately milepost 128 of the Glenn Highway, southwest of Nelchina, AK.

c. *Route Alternative 3:* Utilization of the TAPS corridor from Delta Junction, AK to North Pole, AK as an alternate route to bring gas directly to the GVEA power plant.

d. *Route Alternative 4:* Utilization of the Parks Highway route from Fairbanks, AK to Wasilla, AK rather than use of the Glenn Highway route.

e. *Design Alternative 1:* Use of 4-inch steel tubing for the segment from Delta Junction, AK to North Pole, AK rather than plastic tubing.

4. Scoping: a. The Corps invites full public participation to promote open communication on the issues surrounding the proposal. All Federal, State, Tribal, local agencies, and other persons or organizations that have an interest are urged to participate in the NEPA scoping process. These meetings will be held to receive public input on the proposed purpose and need of the project, to identify significant issues and to discuss proposed alternatives. The scoping process will help to further explain the purpose and need plus the alternatives to be reviewed in the DEIS. The project scoping period will begin on February 1, 2009 and end on March 15, 2009.

b. The DEIS will analyze the potential social, economic, and environmental impacts to the affected areas. The following major issues will be analyzed in depth in the DEIS: The natural gas delivery system construction and operation and its affect upon the surrounding communities; essential fish habitat; threatened and endangered species including critical habitat; cultural resources; socioeconomic; alternatives; secondary and cumulative impacts.

c. The Corps will serve as the lead Federal agency in the preparation of the DEIS. The Bureau of Land Management is participating as a cooperating agency.

5. The scoping meetings are tentatively planned for the following dates and locations and each meeting with include an open-house from 5 p.m.–6 p.m. and a project presentation and questions and answer session from 6 p.m.–8 p.m. (Please consult the above referenced Web site for any changes and additional information including the scoping summary):

a. *Anchorage:* March 4, 2009 at Sheraton Hotel (401 East 6th Avenue, Anchorage, AK).

b. *Wasilla:* March 5, 2009 at Central Mat-Su Public Safety Building (101 West Swanson Drive, Wasilla).

c. *Glennallen:* February 24, 2009 at Tazlina Village Hall (Mile 110.5 Richardson Highway, Glennallen, AK).

d. *Delta Junction:* February 25, 2009 at Delta Junction Community Center (2288 Deborah Street, Delta Junction, AK).

e. *Fairbanks/North Pole:* February 26, 2009 Wedgewood Resort (212 Wedgewood Drive, Fairbanks, AK).

6. It is anticipated that the DEIS will be available for public review in the fall of 2009.

Dated: January 9, 2009.

## DEPARTMENT OF EDUCATION

### Notice of Proposed Information Collection Requests

**AGENCY:** Department of Education.

**SUMMARY:** The Leader, Information Collection Clearance Division, Regulatory Information Management Services, Office of Management, invites comments on the proposed information collection requests as required by the Paperwork Reduction Act of 1995.

**DATES:** Interested persons are invited to submit comments on or before March 23, 2009.

**SUPPLEMENTARY INFORMATION:** Section 3506 of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35) requires that the Office of Management and Budget (OMB) provide interested Federal agencies and the public an early opportunity to comment on information collection requests. OMB may amend or waive the requirement for public consultation to the extent that public participation in the approval process would defeat the purpose of the information collection, violate State or Federal law, or substantially interfere with any agency's ability to perform its statutory obligations. The Leader, Regulatory Information Management Services, Office of Management, publishes that notice containing proposed information collection requests prior to submission of these requests to OMB. Each proposed information collection, grouped by office, contains the following: (1) Type of review requested, e.g. new, revision, extension, existing or reinstatement; (2) Title; (3) Summary of the collection; (4) Description of the need for, and proposed use of, the information; (5) Respondents and frequency of collection; and (6) Reporting and/or Recordkeeping burden. OMB invites public comment.

The Department of Education is especially interested in public comment addressing the following issues: (1) Is this collection necessary to the proper functions of the Department; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the Department enhance the quality, utility,

and clarity of the information to be collected; and (5) how might the Department minimize the burden of this collection on the respondents, including through the use of information technology.

Dated: January 14, 2009.

### Federal Student Aid

*Type of Review:* New Collection.

*Title:* College.gov Career Tools and College Coaches.

*Frequency:* On Occasion.

*Affected Public:* Individuals or household; Businesses or other for-profit.

*Reporting and Recordkeeping Hour Burden:*

Responses: 400.

Burden Hours: 133.

*Abstract:* The purpose for including the Career Tool and I'm Going Guide features is to provide students with real world, relatable examples of current college students who were able to overcome obstacles in order to reach a postsecondary education. This feature builds on College.gov's objective to provide students with the inspiration and hopes to see that a college education is possible for everyone (especially targeting underrepresented populations). In the I'm Going Guide feature, students can select current college students to view their profiles, see why and how they went to college, and read the college student's advice for high school students. Each student's profile would include their first name, photo, major and brief description about the student, such as where they are studying, and tips for other students. For the Career Tool feature, the site would show 24 different college grads at a time, but the goal would be to have about 75 that we could "shuffle" on the tool's display. Each college grad's profile would provide their first name, major, career field, and advice for students interested in their field of study. This information clearance will enable the Department to college grad profiles for including in the Career Tool and I'm Going Guide.
