Inset Out Area

Where international, state, and/or county boundaries coincide, the map shows the boundary symbol for only the highest-ranking of these boundaries.
¹ A "1" following a place name indicates that the place is also a false MCD.
² In 1990, the census-90 census population of ships at sea was allocated to census tracts with a "99" suffix. An anchor symbol appeared on the 1990 maps locating a census-90 vessel tract. These maps show a very small area symbolized as a census tract with the census tract number shown near the area.
