Dear EPA:

I am writing to voice my support of EPA's initiation of a veto of the Yazoo Pumps Project under section 404(c) of the Clean Water Act. I am in favor of and support real protection for natural resources and ecosystems generally, and the Yazoo Pumps Project seems an entirely unnecessary destruction of important habitat.

I urge EPA to finalize a veto of this project under section 404(c) of the Clean Water Act.

Sincerely,
