(a) *General.* This section prescribes rules under which copyright owners or their agents may provide notice to qualified libraries and archives (including a nonprofit educational institution that functions as such) that a published work in its last 20 years of copyright protection is subject to normal commercial exploitation, or that a copy or phonorecord of the work can be obtained at a reasonable price, for purposes of section 108(h)(2) of title 17 of the United States Code.

Each additional work in the group must be identified on a separate continuation sheet. The required format for the continuation sheet is set out in Appendix B to this section, and is available from the Copyright Office website (<http://lcweb.loc.gov/copyright>). A group filing is permitted provided that:

(2) Amount. The filing fee for recording Notice to Libraries and Archives is prescribed in §201.3(d).

§ 201.40 Exemption to prohibition against circumvention.

(a) General. This section prescribes the classes of copyrighted works for which the Librarian of Congress has determined, pursuant to 17 U.S.C. 1201(a)(1)(C) and (D), that noninfringing uses by persons who are users of such works are, or are likely to be, adversely affected. The prohibition against circumvention of technological measures that control access to copyrighted works set forth in 17 U.S.C. 1201(a)(1)(A) shall not apply to such users of the prescribed classes of copyrighted works.

(b) Classes of copyrighted works. Pursuant to the authority set forth in 17 U.S.C. 1201(a)(1)(C) and (D), and upon the recommendation of the Register of Copyrights, the Librarian has determined that during the period from October 28, 2003, through October 27, 2006, the prohibition against circumvention of technological measures that effectively control access to copyrighted works set forth in 17 U.S.C.

1201(a)(1)(A) shall not apply to persons who engage in noninfringing uses of the following four classes of copyrighted works:

(1) Compilations consisting of lists of Internet locations blocked by commercially marketed filtering software applications that are intended to prevent access to domains, websites or portions of websites, but not including lists of Internet locations blocked by software applications that operate exclusively to protect against damage to a computer or computer network or lists of Internet locations blocked by software applications that operate exclusively to prevent receipt of e-mail.

(2) Computer programs protected by dongles that prevent access due to malfunction or damage and which are obsolete.

(3) Computer programs and video games distributed in formats that have become obsolete and which require the original media or hardware as a condition of access. A format shall be considered obsolete if the machine or system necessary to render perceptible a work stored in that format is no longer manufactured or is no longer reasonably available in the commercial marketplace.

(4) Literary works distributed in ebook format when all existing ebook editions of the work (including digital text editions made available by authorized entities) contain access controls that prevent the enabling of the ebook's read-aloud function and that prevent the enabling of screen readers to render the text into a specialized format.

(c) Definitions. (1) "Internet locations" are defined to include domains, uniform resource locators (URLs), numeric IP addresses or any combination thereof.

(2) "Obsolete" shall mean "no longer manufactured or reasonably available in the commercial marketplace."

(3) "Specialized format," "digital text" and "authorized entities" shall have the same meaning as in 17 U.S.C. 121.
