Dear FCC:

Get your hand out of the pocket of the NAB and allow the merger already will you? Anyone who has satellite radio knows that the NAB is scared because satellite radio is so much better. I am looking forward to the two companies becoming one, it saves me MONEY. Yes the same kind of money you guys are taking as bribes right now from the NAB to keep this process going for so long. Congress and politicians now days are WORTHLESS. You do nothing for the public all you care about is how much money you can get for helping big business. You are the same idiots that think Bush is doing a good job and the war is going well. Get a clue people, do something for a change that isn't for you or the big business you represent and get paid by (for example the NAB). You are all looking like bigger idiots than you already did when you voted for the war. And then I just read something tonight about you loosening the rules for ownership of radio, news and TV ownership? You are all screwed up in the head and rich in your pocket books because of it. I hope you all rot in hell for the things you are doing. To us its called illegal activity, to you its called a "normal work day".

Get a clue,

Keith Essenyi
