Subpart 3410.7—Use of Metric System

3410.701 Policy of the Department of Education with respect to use of the metric system.

It is the policy of the Department of Education to encourage use of the metric system in industry standards, consistent with the legal status of this system as the preferred system of weights and measures for United States trade and commerce.

3410.702 Definitions.

Department means the United States Department of Education.

Metric system (a) This term means the International System of Units established by the General Conference of Weights and Measures in 1960.

(b) The units are listed in Federal Standard 376A, "Preferred Metric Units for General Use by the Federal Government."

48 CFR Ch. 34 (10-1-04 Edition)

3410.703 Responsibilities of the Department of Education with respect to use of the metric system.

(a) Consistent with the Federal Acquisition Regulation System, contracting officers of the Department shall—

(1) Accept, without prejudice, products and services dimensioned in metric units if they are offered at competitive prices and meet the needs of the Department; and

(2) Ensure that acquisition planning considers these products and services.

(b) Consistent with the policy in the Metric Conversion Act, as amended, and in 3410.701, if the metric system is the accepted system of weights and measures in a particular industry, the Department ensures that solicitations include specifications and purchase descriptions stated in metric units of measurement.

(c) If the metric system is not the accepted system of weights and measures in a particular industry, the Department ensures that solicitations for procurements in excess of the small purchase threshold permit offerors to propose products or services in metric units of measurement, except when to do this would be detrimental to the purpose of the affected program.
