Open Your Eyes to Wildlife

*An Educator's Guide to Tualatin River
National Wildlife Refuge*

Acknowledgments

The U.S. Fish & Wildlife Service educates the public about the environment in order to work together on conserving, protecting and enhancing plants, animals and their habitat. The Tualatin NWR environmental education program enables students young and old to learn the value of our ecosystems. When we collaborate with schools and other educational groups, we extend the learning process beyond conventional classroom limits and benefit society immeasurably.

Funding Acknowledgments:

This Guide was written and field tested through grants from:

Clean Water Services, a public utility committed to protecting water resources in the Tualatin River Watershed. See <http://www.cleanwaterservices.org>

Metro / US Fish and Wildlife Service Greenspaces Program Grant. This program is administered by Metro which is the directly elected regional government that serves more than 1.3 million residents in Clackamas, Multnomah and Washington counties, and the 25 cities in the Portland, Oregon, metropolitan area. See <http://www.metro-region.org/>

National Fish and Wildlife Foundation. The Foundation conserves healthy populations of fish, wildlife and plants, on land and in the sea, through creative and respectful partnerships, sustainable solutions, and better education. It meets its goals by awarding matching grants to projects benefiting conservation education, habitat protection and restoration, and natural resource management. See <http://www.nfwf.org/>
