 Food and Nutrition Service
#### Abstract

Public reporting burden of this collection of information is estimated to average twenty (20) minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. An agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to: Department Clearance Officer, OIRM, AG Box 7630, Washington, DC, 20250

The following pages contain the reporting form for State WIC Agencies to use for the 1998 WIC Participant and Program Characteristics Study (PC98). This information is needed to describe State WIC Program operations for the PC98 report. Information is requested on certification, eligibility, and food packages. Please be sure that the information you provide applies to the PC98 reference month, which is April 1998.

The PC98 reporting form is essentially the same as the form used in 1996. As was done in 1996, the attached form has been pre-coded with the data your State Agency provided two years ago.
$\Rightarrow$ For most of the questions, first review your 1996 data printed in the RIGHT-HAND-SIDE BOX. If you provided any written comments in 1996 in response to "Other/Specify" instructions, they are included in the Appendix at the end of this form. If there have been no changes since 1996 and all the data are correct and complete, check the box labeled "No Changes" and proceed to the next question.
$\Rightarrow$ If ANY of the 1996 information no longer applies to your 1998 operations, fill in your complete 1998 information in the space provided, following instructions specific to that question. (You may need to repeat some of the 1996 data.)
$\Rightarrow$ For Questions A3, B1, D1, D2, and E1, the 1996 data are displayed differently or omitted. In these cases, please follow the specific instructions carefully. For questions A2 and C3A, the response categories have been expanded for 1998. Please read these questions carefully.
$\Rightarrow$ Use a RED pen to write in all new information for PC98.
Please send your completed summary to: Sheela Kennedy
PC98 Data Coordinator
Abt Associates Inc.
55 Wheeler Street
Cambridge, Massachusetts 02138
Summaries are due by September 11, 1998. An addressed, stamped envelope is enclosed. Please do not hesitate to call us if we can answer any questions or provide more information. Sheela's telephone number is (617) 349-2559.

Thank you for your cooperation.

## SUBMITTED BY

NAME OF STATE WIC AGENCY

PC98 IDENTIFICATION NUMBER

## Income Determination

A1. Describe the State Agency (SA) gross income limit for eligibility.
If different from the 1996 data, circle one number. Specify income, if appropriate.

SA uses the standard 185 percent of poverty guidelines published in the Federal Register

SA uses other standards (Specify) . . . . . . . . . . . . . . . . . . . . . 2

| Economic | Income Limit <br> (gross per annum) | or |
| :--- | :--- | :--- |
| Unit | Percent of <br> Poverty |  |

| 1 person |  |
| :--- | :--- |
| 2 people |  |
| 3 people | $\square$ |
| 4 people | $\square$ |
| 5 people | $\square$ |
| 6 people | $\square$ |
| 7 people | $\square$ |
| 8 people | $\square$ |
| 9 people |  |
|  |  |

3. 
4. 
5. 
6. 
7. 
8. 
9. 

No Changes.

A2. What programs and/or respective income limits are used by the State Agency for adjunctive eligibility determinations?

If different from the 1996 data, provide complete information for 1998; circle the programs and specify the maximum percent of poverty allowed for those programs. Note that response categories 7 through 10 have been added this year.

| Program | \% of Poverty |  |
| :---: | :---: | :---: |
| TANF |  | 1. |
| Food Stamp Program | 130\% | 2. |
| Medicaid |  | 3. |
| SSI |  | 4. |
| Reduced-Price School Lunch | 185\% | 5. |
| Free School Lunch | 130\% | 6. |
| Head Start |  | 7. |
| General Assistance . . . . . . . |  | 8. |
| Low Income Energy Assistance |  | 9. |
| Food Distribution Programs on |  |  |
| Indian Reservations (FDPIR). |  | 10. |
| Other Programs (SPECIFY) . . . |  | 11. |
|  |  | $\square$ No Changes. |

A3. Please provide your State Agency's definition or guidelines for determining income eligibility. Include the definition of economic unit.

This question may be answered by attaching a copy of your State's income policy definitions/guidelines.

$\qquad$
$\qquad$
$\qquad$
$\qquad$
$\qquad$

A4. Does the State Agency require documentation of primary income sources (such as, wages and salaries)?

## YOUR 1996 DATA

If different from the 1996 data, circle one number.
Yes, the applicant must provide documentation 1

No, applicant self-declares income for economic unit . . . . 2
1.
2.

In some cases, local agencies have discretion with regard to documentation 3

Documentation is preferred in all cases, but it is not required 4

A5. Are local agencies required to contact others outside of the WIC Program to verify the accuracy of income documents supplied by applicants?

If different from the 1996 data, circle one number.
Yes 1

No 2
1.
2.

No Changes.

## Nutritional Risk Criteria

B1. Below, please provide the State Agency's standards for each participant category and priority level for the nutritional risk criteria shown in Columns A, B, C, D, and E. If only hemoglobin values are used, complete Column A. If only hematocrit values are used, complete Column B.

NOTE For this question, your 1996 data are shown in brackets [ ] in the tables below. For any data that have changed, please cross out the 1996 value and write in the 1998 information in the spaces next to the brackets [ ], using a RED PEN. If your State provided special information in 1996, such as separate anemia criteria for differing altitudes, only an average value is displayed below. If you apply more detailed criteria, please attach more detailed information.

## B1. (Continued)

|  |  | A | B | C | D | E |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |

2. 

No Changes.

## YOUR 1996 DATA

1. 
2. 
3. 
4. 
5. 

Specific food brands are designated or disallowed (including generic brands)1
Specific food container sizes are designated ..... 2

Within a food group, the specific form of a food may be specified (powdered milk, juice concentrate, for example) 3

One or more specified food types may be eliminated from a food category (peanut butter, for example) . . . . . . 4

Other methods (SPECIFY) . . . . . . . . . . . . . . . . . . . . . . . . 5

C2. What adjustments are routinely made to food packages to achieve administrative efficiencies?

If there are any changes from the 1996 data, circle all numbers that apply in 1998.
$\qquad$
$\qquad$
$\qquad$
$\qquad$
$\qquad$
$\qquad$
No Changes.

C3. Does the State Agency allow competent professional YOUR 1996 DATA authorities to tailor food packages for nutritional needs or participant preference?

If different from the 1996 data, circle one number.
Yes (ANSWER question c3A.) . . . . . . . . . . . . . . . . . . . . . 1
No (skip to question c4.) . . . . . . . . . . . . . . . . . . . . . . 2
1.
2.

No Changes.

## C3A. What tailoring practices are routinely done to meet nutritional need or participant preference?

## If there are any changes from the 1996 data, circle all

 numbers that apply in 1998.$$
\begin{aligned}
& \text { Type of milk is specified (to reduce fat, lactose, } \\
& \text { or calories, for example) . . . . . . . . . . . . . . . . . . . } 1
\end{aligned}
$$

Type of cheese is specified (to reduce fat) . . . . . . . . 2
Type of cereal is specified (to reduce sucrose) . . . . . . . 3
Forms or types of formula are specified (ready-to-feed or powdered formula)4
Amounts of certain food types are reduced (to decrease caloric or nutrient intake) ..... 5
Amounts of certain food types are reduced (for participant age-related needs) ..... 6
Amounts of milk and juice are reduced ..... 7
Quantity of eggs is decreased (to reduce cholesterol) ..... 8
A certain form of food is specified for theconvenience of the participant (for example,powdered milk, juice concentrate)9
Other methods (SPECIFY) ..... 10
$\qquad$
$\qquad$
$\qquad$
$\qquad$
$\qquad$
$\qquad$
$\qquad$
$\qquad$

No Changes.

## C4. Does your State Agency provide a standard food instrument or food package type for local agency staff to use in prescribing a food package?

Please note that this question refers to general practices that are applied in States where State Agencies automatically generate food instruments. Issuance procedures may differ for automated versus manual food instruments.

If different from the 1996 data, circle one number.
Yes, standard food packages are available for specific categories of participants1

Yes, standard food instruments can be selected or combined to create food packages for participants 2

Yes, standard food instruments can be tailored by making choices of amounts or food types directly on each food instrument 3

No, standard food packages or food instruments are not used. Each food package prescription is individualized

Other methods of food package tailoring (SPECIFY) . . . . . . 5
5.

No Changes.

## Food Instrument Issuance

D1. Below, please indicate-by circling the appropriate numbers-the typical frequency of food benefits issuance. The frequency of food benefits issuance is the supply-the number of months-of food instruments issued to any participant at any one time.

In the grid below, please circle the appropriate numbers for standard issuance frequencies. Do not include short-term issuance which may reflect one-month grace periods while applicants or staff collect documentation. Circle only one response for each participant category except high-risk. If appropriate, circle more than one category for high-risk participants and for different local agency characteristics.

D2. Does your State Agency require all local agencies to issue food benefits according to the standard issuance frequencies?

Circle Yes or No in the grid below for each participant category.

|  | D1. <br> Standard Issuance Frequency |  |  |  |  | D2. <br> Required of all Local Agencies? |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  | One Month | Two Months | Three Months | Other | SPECIFY | Yes | No |
| Participant Category |  |  |  |  |  |  |  |
| Pregnant women | 1 | 2 | 3 | 4 |  | Y | N |

| Other SPECIFY | 1 | 2 | 3 | 4 |  |  |  |

## Food Package Cost

E1. What is the total actual or estimated average monthly food package cost by participant category? We would prefer that you report actual cost for each of the five participant categories. Please report actual or estimated costs for the reference month of April 1998. (Your 1996 data for this question are not shown because food costs are likely to have changed.)

Actual food costs are total food expenditures divided by the number of participants who were issued food instruments.

Estimated costs represent the total estimated dollar amounts of particular types of food packages for the five participant categories. This cost is calculated using a "market basket" method. A "market basket" method uses food prices for a typical package of food for each participant category. For example, a package might contain twenty-one (21) quarts of milk at $\$ 0.80$, plus two (2) forty-six-ounce containers of juice at $\$ 0.95$, and so on. The costs of the individual items are totaled to arrive at an estimated cost for that particular food package.

## Food and Nutrition Service

[^0]This survey has been customized for your agency. The lists of service delivery sites should include all sites in operation during April 1998. If a service delivery site was not in operation during April 1998, please cross out that site. If additional service delivery sites were in operation in April 1998, please add their names to the printed lists.

If you have any questions about this survey, please contact Susan Bartlett, Project Director, at (617) 349-2799 or Brenda Rodriguez, Survey Director, at (617) 349-2544 by phone, or (617) 349-2665 by fax. You may also reach us by e-mail using the following addresses:

Susan_Bartlett@abtassoc.com and Brenda_Rodriguez@abtassoc.com.
Please answer every question in this survey.

## Description of Local Agencies

A local agency is defined as an organizational entity one level below the State WIC Agency.
A service delivery site is a clinic or other unit through which a local WIC agency provides direct services to WIC participants.

Please base all of your answers on the month of April 1998.

## A1. What type of organization sponsors your local agency?

> If there are multiple sponsors, circle all that apply.
State health agency ..... 01
District health agency ..... 02
Multi-county agency ..... 03
County health agency ..... 04
Municipal health agency ..... 05
Community health agency ..... 06
Community action agency ..... 07
Indian health agency ..... 08
Indian agency ..... 09
Public hospital ..... 10
Private voluntary hospital ..... 11
Private proprietary hospital ..... 12
Private/non-profit agency ..... 13
Other SPECIFY ..... 14

## A2. What is the best description of the geographic area served by your local agency?

Circle the one number which best describes your service area.
A single neighborhood . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . 01
A group of neighborhoods . . . . . . . . . . . . . . . . . . . . . . . . . . . . 02
A city . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . 03
A portion of one county (or parish) . . . . . . . . . . . . . . . . . . . . 04
One county (or parish) . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . 05
Portions of several counties . . . . . . . . . . . . . . . . . . . . . . . . . . . 06
Multiple counties or parishes . . . . . . . . . . . . . . . . . . . . . . . . . . 07
A State-designated health district: . . . . . . . . . . . . . . . . . . . . . . 08
Enter number of counties
Special populations throughout the State . . . . . . . . . . . . . . . 09
The entire State: Enter number of Counties__ . . . . 10
Other SPECIFY ................................................... 11

A3. Below, please indicate the services provided at each of your service delivery sites.
Enter the names of any additional sites at the bottom of the printed list and cross off any sites that were not in operation in April 1998. Then, please circle either yes or no for each feature for each service delivery site.

| Name of Site | All WIC services are provided Certification, nutrition education, referrals, food instrument issuance. | Site operates on a part-time basis | Extended hours are offered <br> Extended hours means offering WIC services other than Monday through Friday from 8:00 AM to 6:00 PM. | Appointments are made for rural or working participants |  | WIC services are provided in vans or other motorized facilities |  | Home visits are available if needed |  | Itinerant (or traveling) WIC staff teams provide services |  | Transportation for clients to and from service delivery site is provided by WIC |  | Site is near bus or subway route |  | Participants are required to obtain blood tests from sources other than WIC |  | Prenatal applicants are required to document pregnancy to be certified for WIC benefits |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |

A5. Please estimate the percentages of Nutrition Services and Administration Costs (NSA) funds that your WIC agency allocates to the services listed below. NSA funds cover direct and indirect costs of program operation. They do not cover food costs.

|  | Percent |
| :--- | :--- |
| Client services |  |
| Certification, food benefit issuance, |  |
| referral, coordination |  |$\quad-2$.

A6. Is the physical space at each of your service delivery sites adequate for the numbers of staff and participants and for their program responsibilities?

In the first column of the grid below, a list of your service delivery sites is provided. Please modify the list if necessary. For each site, circle the appropriate number in the grid.

| Service Delivery Site | Physical space is. . . |  |
| :--- | :---: | :---: |
|  | Adequate | Inadequate |
|  | 1 | 2 |

$\qquad$

## Eligibility Determination

B1. Do you require staff at service delivery sites to document the amount of primary income (from sources such as wages and salaries) for all WIC applicants?

Circle one number.
Yes, applicants must always provide documentation ........ 1
No, applicants are allowed to self-declare income for economic unit 2

Documentation is preferred in all cases, but it is not
required . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . 3
Other SPECIFY .................................................... . . 4
$\qquad$
$\qquad$

B2. Please indicate the types of documentation accepted at your service delivery sites.

Circle all numbers that apply in 1998.
Pay stub . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . 1
W-2 .............................................................. . . . 2
Proof of certification for program providing adjunct eligibility . . . . . . . . . . . . . . . . . . . . . . . . . . . . 3
Letter from employer . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . 4
Tax forms ........................................................ . . . 5
Other SPECIFY ....................................................... 6
$\qquad$
$\qquad$
B3. What programs are used by your agency for automatic income eligibility determinations for WIC?
Circle all numbers that apply in 1998.
Temporary Assistance to Needy Families (TANF; formerly AFDC) ..... 01
Food Stamp Program ..... 02
Medicaid ..... 03
Supplemental Security Income (SSI) ..... 04
Reduced-Price School Lunch ..... 05
Free School Lunch ..... 06
Head Start ..... 07
General Assistance ..... 08
Low Income Energy Assistance ..... 09
Food Distribution Programs on Indian Reservations (FDPIR) ..... 10
Other sPECIFY ..... 11
B4. Are the procedures used to document income determined by the State WIC office or by your agency?
Circle one number.
State WIC agency establishes income documentation procedures ..... 1
State WIC agency provides general income guidelines and local agency establishes income documentation procedures ..... 2
Local agency sets income documentation procedures ..... 3
Other SPECIFY ..... 4

B5. To be eligible for WIC in your agency, what is the maximum allowable gross income for a family of four?

Record dollar amount for one of the following time periods or record percent of poverty.
\$ $\qquad$ per week
\$ $\qquad$ per month
\$ $\qquad$ per year

OR
$\qquad$ Percent of poverty

## Nutritional Risk Criteria

C1. In your service delivery sites, which of the procedures listed below best describes how nutritional risk criteria are documented on participant certification forms?
Circle one number.
The single most important criterion is recorded ..... 1
All risk criteria are recorded ..... 2
A set number of the more important criteria are recorded ..... 3
SPECIFY NUMBER OF CRITERIA
$\qquad$
The most easily and quickly identifiable criteria are recorded ..... 4
Local certifiers decide which criteria and how many criteria to record ..... 5
Other SPECIFY ..... 6

## Nutrition Education

D1. For each category of participant, please indicate when nutrition education services are typically provided for participants who are not high-risk.

D2. For each category of participant, please indicate who typically provides nutrition education services.

Please circle the appropriate numbers in the grid below. Please note that the next set of questions address services for high-risk participants.

|  | Participant Category |  |  |  |  |
| :--- | :---: | :---: | :---: | :---: | :---: |

## Food Instrument Issuance

E1. Below, please indicate-by circling the appropriate numbers-the frequency of food benefits issuance. The frequency of food benefits issuance is the supply-the number of months-of food instruments issued to any participant at any one time.

In the grid below, please circle the appropriate numbers for standard issuance frequencies. Do not include short-term issuance which may reflect one-month grace periods while applicants or staff collect documentation. Circle only one response for each participant category except high-risk. If appropriate, circle more than one category for high-risk participants. If issuance frequencies vary by service delivery site, please photocopy this page and provide information for each site.

|  | Participant Category |  |  |  |  |  |
| :--- | :---: | :---: | :---: | :---: | :---: | :---: |
| Standard <br> Frequance | Pregnant <br> Women | Breastfeeding <br> Women | Postpartum <br> Women | Infants | Children | High- <br> Risk |
| One (1) month | 1 | 1 | 1 | 1 | 1 | 1 |

| Navajo Nation (AZ) | 1 | 2 | 2 | 2 | 2 | 1,2 | $\checkmark$ |  |

## Notes

Each State WIC agency was asked to indicate the standard issuance frequency used in the State for each certification category. States were only allowed to indicate one response for each certification category except high-risk.
${ }^{9}$ Idaho only requires local agencies to issue food benefits according to standard issuance frequencies for pregnant and high-risk participants.
${ }^{\text {n }}$ ITC-Arizona does not require local agencies to issue food benefits according to standard issuance frequencies for any participant category except high-risk.

| Over 200 | 0.3 | 0.3 | 0.4 | 0.3 | 0.3 | 0.3 | 0.3 | 0.3 | 0.4 | 0.3 | 0.4 | 0.4 |
| Income reported as zero ${ }^{\text {a }}$ | 7.0 | 3.3 | 4.1 | 4.2 | 4.4 | 2.0 | 1.6 | 1.7 | 5.6 | 2.6 | 2.8 | 2.8 |
| Not reported ${ }^{\text {b }}$ | 13.6 | 15.9 | 12.5 | 17.6 | 9.9 | 12.7 | 8.6 | 12.9 | 11.6 | 13.8 | 10.2 | 14.6 |

Notes
Poverty level calculations are based on income, income period, and household size as reported by State WIC agencies
${ }^{\text {a }}$ Zero incomes are reported separately and excluded from these income calculations. In some reporting agencies, zero may be used to indicate missing information or adjunctive eligibility. PC data cannot, therefore, distinguish between households with missing income information and households reporting zero income.
${ }^{\mathrm{b}}$ Not reported indicates the percentage of participants by participant category for whom no data on income, income period, or size of economic unit are reported.

## Notes

 are reported as percents

 two States reported trimester-based criteria for hemoglobin values and no criteria for hematocrit values. One State reported trimester-based criteria for hematocrit values and no criteria for hemoglobin values.

Calculations for measure of central tendency are based on numbers of States reporting eligibility criteria for specific blood measures.

## Notes

When WIC applicants or participants have blood test values less than or equal to the criteria listed in this table, they are considered to be at nutritional risk. Hemoglobin values are reported in grams per deciliter.

[^1]Calculations for measures of central tendency are based on numbers of States reporting eligibility criteria for specific blood measures.

| Standard deviation |  | 0.345 |  |  | 0.371 |  |  | 0.335 |  |

## Notes

When WIC applicants or participants have blood test values less than or equal to the criteria listed in this table, they are considered to be at nutritional risk. Hemoglobin values are reported in grams per deciliter. Hematocrit values are reported as percents.

All State WIC agencies establish nutritional risk eligibility criteria for infants and children: 84 States reported criteria for both hemoglobin and hematocrit values, although one State did not report these data for 1 year old children. Three States reported criteria only for hemoglobin values; one State reported criteria only for hematocrit values.

Calculations for measures of central tendency are based on numbers of States reporting eligibility criteria for specific blood measures.

## Notes

When WIC applicants or participants have blood test values less than or equal to the criteria listed in this table, they are considered to be at nutritional risk. Hematocrit values are reported as percents.

All State WIC agencies establish nutritional risk eligibility criteria for breastfeeding and postpartum women: 83 States reported both hemoglobin and hematocrit values for breastfeeding and postpartum women; one State reported both hemoglobin and hematocrit values for breastfeeding women but only hematocrit values for postpartum women. Three States only reported hemoglobin values and one State only reported hematocrit values for breastfeeding and postpartum women.

Calculations for measures of central tendency are based on numbers of States reporting eligibility criteria for specific blood measures.

Note
$\mathrm{N} / \mathrm{R}=$ Not reported.

[^0]:    Public reporting burden of this collection of information is estimated to average thirty (30) minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. An agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to: Department Clearance Officer, OIRM, AG Box 7630, Washington, DC, 20250.

[^1]:    All State WIC agencies establish nutritional risk eligibility criteria for breastfeeding and postpartum women: 83 States reported both hemoglobin and hematocrit values for breastfeeding and postpartum women; one State reported both hemoglobin and hematocrit values for breastfeeding women but only hematocrit values for postpartum women. Three States only reported hemoglobin values and one State only reported hematocrit values for breastfeeding and postpartum women.

[^2]:    Notes
     reported as percents.
    
     reported trimester-based criteria for hemoglobin values and no criteria for hematocrit values. One State reported trimester-based criteria for hematocrit values and no criteria for hemoglobin values
