

## **ACKNOWLEDGMENTS**

A great many dedicated people have helped the EFCs along the way. We particularly want to acknowledge the EPA Regional management and staff noted below who have generously provided their skills and time in managing the cooperative agreements with each of the centers. The EFC network would simply not exist without the Regions' superb cooperation and support. Additionally, we appreciate very much the key assistance and support of Headquarters management and staff in the Program Offices.

In 2000, we welcomed a new EFC from Region 1 to the Network. We especially want to acknowledge the support and assistance we received from EPA staff in Region 1, specifically Jim Cabot, Leader of the Strategic Planning Team, and Diane Gould, in the Maine State Program of the Ecosystem Protection Office, for their support and help in extending the EFC Network's outreach into the New England states.

Also, we are deeply indebted to John Wise, who retired in 2001 as the Director of the Office of Strategic Planning and Emerging Issues in Region 9 and Executive Director of the Environmental Financial Advisory Board (EFAB). We will miss his knowledgeable leadership, but we look forward to his continued participation on EFAB as an expert witness. EFAB's new Designated Federal Official is Stan Meiburg, who is Acting Regional Administrator for Region 4. We are very pleased that someone as highly respected as Stan is going to be the Designated Federal Official for EFAB and are looking forward to working with him given the interactive role of the EFC Directors as expert witnesses to EFAB.

Finally, we are deeply indebted to Michael Ryan, Deputy Chief Financial Officer, Joseph Dillon, Comptroller, and Ron Bachand, Acting Deputy Comptroller, for their outstanding support of the Centers. There is no model or template for the Centers and they have benefitted greatly from the valuable guidance and suggestions of these individuals.

Vera Hannigan  
EFC Network Coordinator

## **ENVIRONMENTAL FINANCE CENTERS ACKNOWLEDGMENTS**

The EFC Network would like to acknowledge the support and working relationships between the EFCs and the state and local governmental entities they serve. Also, the EFC Network is greatly indebted to EPA, both Headquarters and the Regional offices, for providing ongoing expertise and participation.
