

This number: 888-249-1033, continues to call my land line at all hours of the day and night, several times a day, sometimes only an hour apart. We do not answer the phone. They leave a message which sounds recorded that basically says "If you are George Archibald and do not pick up the phone, this acknowledges that you are George Archibald." (3 seconds pause that she tells you about...), then, "Please contact us, The Merchants Credit Guide, at this number in regard to a debt collection....(BLAH, BLAH, BLAH....) Several times the "recorded" voice hesitates during the message for another voice to say our name, "George Archibald"...it has been a female and a male voice...never the same. I Googled the number and the info says it is a SCAM...I have kept a long of all the times they have called in the last 2 weeks, and saved 3 of the recorded messages. I am registered on the donotcall.gov list. Something really needs to be done...this is NOT the only number that calls each day...the phone is constantly ringing with these kinds of con artists.... and it really disrupts a normal life. We do not want to turn off our phone as we do have people that need to contact us and we need to have our phone on in case of an emergency. PLEASE do something about these scam artists!!!
