- 5.

- 6.
- 7.
- 8.
9. (ATF)

Special Projects

We also have some special projects that need to be headed up before encampment. We are looking for TACs that are willing to take on adjunct duties or special projects for us. The cadets have been running these projects successfully the past few years but not as well as they could due to the huge amount of work they have to do making this activity successful. These projects include:

1. Banquet facilitation (helping securing POW table items, program development, order of events, etc.)
2. ES Activity (design the 1-2 hour mini intro to ES for cadets)
3. Color Guard (oversee the development of the color guard and securing all wing items needed)
4. Awards (help plan, order, and pick up awards for cadet staff and SM staff)
5. T-shirts (place the t-shirt order, pick up t-shirts)
6. Website Maintenance **Maj. Buddy McCormick**

Thank you to all who volunteer for your support of the cadets!

Erin L. Ashby, Lt. Col., CAP
Commander 2009 COWGE
