

I depend on radio and tv for non-partisan reporting. Unfortunately ads, commercials, and editorialized air time that is partisan is often inaccurate or deeply biased. I want public air waves to remain true to the intent of non corporate radio stations. I resent the use of public air waves for the biased use of conglomerates like sinclair. If they are going to broadcast pro-bush ads across the country, they must provide the viewer with equal broadcast time for Kerry.

Sincerely,

Pat d
