

Based on the above-mentioned information, officials of the National Park Service have determined that, pursuant to 43 CFR 10.2 (d)(1), the human remains listed above represent the physical remains of seven individuals of Native American ancestry. Officials of the National Park Service have also determined that, pursuant to 25 U.S.C. 3001 (3)(A), the 2,293 objects listed above are reasonably believed to have been placed with or near individual human remains at the time of death or later as part of the death rite or ceremony. Lastly, officials of the National Park Service have determined that, pursuant to 25 U.S.C. 3001 (2), there is a relationship of shared group identity which can be reasonably traced between these Native American human remains and associated funerary objects and the Assiniboine and Sioux Tribes of the Fort Peck Indian Reservation, Gros Ventre and Assiniboine Tribes of Montana, and Three Affiliated Tribes of the Fort Berthold Reservation.

This notice has been sent to officials of the Assiniboine and Sioux Tribes of the Fort Peck Indian Reservation, Chippewa-Cree Indians of the Rocky Boy Reservation, Crow Tribe, Gros Ventre and Assiniboine Tribes of Montana, Standing Rock Sioux Tribe, Three Affiliated Tribes of the Fort Berthold Reservation, and Turtle Mountain Band of Chippewa Indians. Representatives of any other Indian tribe that believes itself to be culturally affiliated with these human remains and associated funerary objects should contact Paul Hedren, Superintendent, Fort Union Trading Post National Historic Site, R.R. 3, Box 71, Williston, ND 58801; telephone: (701) 572-9083 before November 4, 1996. Repatriation to the Assiniboine and Sioux Tribes of the Fort Peck Indian Reservation, Gros Ventre and Assiniboine Tribes of Montana, and Three Affiliated Tribes of the Fort Berthold Reservation may begin after that date if no additional claimants come forward.

Notice of Inventory Completion for Native American Human Remains from Hawaii in the Possession of the Fowler Museum of Cultural History, University of California-Los Angeles, CA

AGENCY: National Park Service, Interior.

ACTION: Notice.

Notice is hereby given in accordance with provisions of the Native American Graves Protection and Repatriation Act (NAGPRA), 25 U.S.C. 3003 (d), of the completion of an inventory of human remains from Hawaii in the possession of the Fowler Museum of Cultural History, University of California-Los Angeles, CA.

A detailed assessment of the human remains was made by the museum professional staff in consultation with representatives of *Hui Mālama I Nā Kūpuna 'O Hawai'i Nei*.

The human remains represent a minimum of seven individuals. No known individuals were identified. No associated funerary objects are present. One jaw bone is labeled "L. Miller, Pre-Columbian Native." Naturalist Loye Miller is believed to have collected these human remains in 1901 and 1903 on the Hawaiian islands of Oahu—at Punahou Campus, the J.S. Castle Grounds, and Waikiki—and Kauai, at Kipukai. It is likely that these human remains came to UCLA along with non-human remains that are now part of Biology Department's the bird and mammal collection. In 1995, the human remains were transferred from the UCLA Department of Biology to the Archaeological Collections Facility of the Fowler Museum of Cultural History.

UCLA physical anthropologists have not been able to determine conclusively that these human remains are Native Hawaiian. However, representatives of *Hui Mālama I Nā Kūpuna 'O Hawai'i Nei* identified the sand dunes of Waikiki and Kipukai as traditional Hawaiian burial grounds. Representatives of *Hui Mālama I Nā Kūpuna 'O Hawai'i Nei* believe that the lack of associated funerary objects with the Punahou Campus and the J.S. Castle Grounds human remains is indicative of pre-contact Native Hawaiian burials.

Based on the above mentioned information, officials of the Fowler Museum of Cultural History have determined that, pursuant to 43 CFR 10.2 (d)(1), the human remains listed above represent the physical remains of seven individuals of Native American ancestry. Officials of the Fowler Museum of Cultural History have also determined that, pursuant to 25 U.S.C. 3001 (2), there is a relationship of shared group identity which can be reasonably traced between these Native American human remains and *Hui Mālama I Nā Kūpuna 'O Hawai'i Nei*.

This notice has been sent to officials of *Hui Mālama I Nā Kūpuna 'O Hawai'i Nei*, the Office of Hawaiian Affairs, the Oahu Burial Committee, and the Kauai/

Nihau Island Burial Council. Representatives of any other Native Hawaiian organization that believes itself to be culturally affiliated with these human remains and should contact Harold Horowitz the NAGPRA Coordinator, Office of the Chancellor, UCLA, Los Angeles, CA 90095, telephone: (310) 825-3504, before November 4, 1996. Repatriation of the human remains to *Hui Mālama I Nā Kūpuna 'O Hawai'i Nei* may begin after that date if no additional claimants come forward.

Notice of Inventory Completion of Native American Human Remains from the Island of Maui in the Possession of the University Museum, University of Arkansas, Fayetteville, AR

AGENCY: National Park Service, Interior.

ACTION: Notice.

Notice is hereby given in accordance with provisions of the Native American Graves Protection and Repatriation Act, 25 U.S.C. 3003 (d), of the completion of the inventory of human remains from the Island of Maui in the possession of the University Museum, University of Arkansas, Fayetteville, AR.

A detailed inventory and assessment of these human remains has been made by museum staff and representatives of *Hui Mālama I Nā Kūpuna 'O Hawai'i Nei*.

The human remains consist of a skull without lower jaw (identified as "probable male") and a lower jaw (identified as "probable female"). The museum purchased these human remains in 1951 from Ward's Natural Science supply company. An accompanying tag identifies the human remains as "ancient" Hawaiians found buried in sand above the high water mark on Waihee Beach, Maui Island. A representative of *Hui Mālama I Nā Kūpuna 'O Hawai'i Nei* has identified Waihe'e dune as a well known place for pre-contact Native Hawaiian burials. Inventory of the human remains and review of the accompanying documentation indicates that no known individuals are identifiable.

Based on the above information, officials of the University Museum have determined, pursuant to 43 CFR 10.2 (d)(1), that the human remains listed above represent the physical remains of

two individuals of Native American ancestry. Officials of museum have determined pursuant to 25 U.S.C. 3001 (2) that there is a relationship of shared group identity which can be reasonably traced between these remains and present-day members of *Hui Mālama I Nā Kūpuna 'O Hawai'i Nei*.

This notice has been sent to *Hui Mālama I Nā Kūpuna 'O Hawai'i Nei*, the Office of Hawaiian Affairs, and the Maui / Lana'i Island Burial Council. Representatives of any Native Hawaiian organization which believes itself to be culturally affiliated with these human remains should contact Dr. Michael P. Hoffman, University Museum, University of Arkansas, Fayetteville, AR 72701, telephone: (501) 575-3855, before November 4, 1996. Repatriation of the human remains to *Hui Mālama I Nā Kūpuna 'O Hawai'i Nei* may begin after that date if no additional claimants come forward.

DEPARTMENT OF JUSTICE

Immigration and Naturalization Service [INS No. 1781-96]

Notice of Intent To Prepare a Draft Environmental Impact Statement for the Construction of a Federal Service Processing Center in San Joaquin County, CA

AGENCY: Immigration and Naturalization Service, Justice.

ACTION: Notice of intent to prepare a Draft Environmental Impact Statement (DEIS).

SUMMARY:

Proposed Action

The Immigration and Naturalization Service (INS) has determined that an additional Service Processing Center (SPC) needs to be constructed to house approximately 350 alien detainees awaiting deportation or other actions pursuant to immigration regulations. Additionally, the site would be used for road access, housing, administrative programs, parking, and support facilities. The INS will evaluate proposed sites located in San Joaquin County, California, for the construction of this facility.

In the process of evaluating the tract of land, several aspects will receive

detailed examination including utilities, traffic patterns, noise levels, visual intrusion, threatened and endangered species, cultural resources, and socio-economic impacts.

Alternatives

In developing the DEIS, the options of no action and alternative sites for the proposed facility will be fully and thoroughly examined.

Scoping Process

During the preparation of the DEIS, there will be numerous opportunities for public involvement in order to determine the issues to be examined. A scoping meeting will be held at a location convenient to the citizens of Tracy and a second scoping meeting will be held for the citizens of Stockton. The meeting will be publicized and held at a time which will make it possible for the public and interested agencies or organizations to attend. In addition, a number of informal meetings have already been held and will be continued by representatives of the Immigration and Naturalization Service with interested community leaders, officials, and citizens.

DEIS Preparation

Public notice will be given in the Federal Register concerning the availability of the DEIS for public review and comment.
