

Please do not ask the states to activate helmet laws. No one should try to legislate safety. I moved to Colorado in 1992 to get away from a police state with too many laws. I, as all the riders I know, are responsible adults with my own health coverage, and am fully aware of the consequences of riding a motorcycle. My cycle permit was issued in 1976 and I've NEVER worn a helmet, and prefer NEVER to wear one. Please reconsider this request and drop this bill.
