Central Railroad Company of New Jersey, Combination Car #303.

Combine Car, #303

Class: CA.

Builder: Pressed Steel Car Company, 1926.

Series: 269-304.

Seating: 51 passengers.

All steel car with standard 4-wheel trucks. Purchased by High Iron Company in 1968 from the CNJ, exchanged with Steamtown Foundation in 1971. Restored by Steamtown NHS, 1995. A postal form found in the car dated July 12, 1964 documents that the car operated on Train 2421 between New York City and Allentown, PA. Operational and handicapped accessible.
