Bell Helicopters India Inc.

B.S. Singh Deo
Managing Director India

Bell Helicopters builds helicopters backed by the best Customer Service in the world. They know the differences between flash and experience, form and function. They know there is a lot more to owning a helicopter than buying a helicopter. They have over 50 years experience of testing and flight innovation. They make sure what's next is what's right.

Bill Thomas Associates

Mr. Jose Ordonez
Executive Vice President

Ms. Christine Thomas-Pollock
Business Development

BTA offers off-the shelf customized solutions, ATA 300 Specification Containers, as well as problem solving capabilities. BTA is devoted solely to serving the Airline Industry. BTA's unique history and capabilities allow them to design, quote, and deliver the proper and suitable packaging based on the Component Part Number to be protected. Before arriving at any packaging solution, they will consult the client to achieve the best, most protective, and cost effective solution possible. They will always take into consideration all aspects of their client's product's lifecycle: from manufacturing and storage, to transportation modes, end user applications, and ease of handling. The latter is vital to employee safety and productivity. They also consider the client's usage: A particular material or process may be suitable and cost-effective for smaller quantities, but not practical for larger volumes. Similarly, we choose from a variety of plastics, metals, foam, rubber materials, and woods to find the perfect combination of strength, weight, size and shape.

Biomass Energy Solutions, Inc

Mr. Amir Rehmat
Technology Officer

Biomass is a one of a kind woman owned company in the U.S., which specializes in providing unique type of small-scale turnkey waste into energy systems for generating alternative energy.

Black & Veatch

Mr. Mohan Tahiliani

Vice President

Black & Veatch Corporation is a global engineering, consulting and construction company with the mission of *Building a World of Difference*®. Channel Logistics has advanced MDA at an operational/ tactical level with respect to Data Acquisition, Assurance and Simulation/ Behavior Pattern Modeling and Recognition/ Tiered Link Analysis and Forensics.

City of San Antonio

Ms. Elena Villarreal
International Business Manager

Mr. Ricardo Perez
Councilman

San Antonio's citizens and visitors travel a true cultural crossroads. As the nation's eighth largest city, we proudly bear the evidence of many peoples who have shaped us - from Canary Islanders who built the nation's oldest cathedral to Asian countries, which continue to introduce new traditions to San Antonio. San Antonio was founded as a military garrison in 1718 by the Viceroy of Spain. Its location served as a halfway post between the East Texas missions and the "Spanish Presidio de Bejar." We actively foster business and political relationships with nations and cities around the world and enjoy productive Sister City relationships with Mexico, Japan, Spain, Taiwan, and South Korea. Our efforts in the global arena have increased the international corporate presence, and help make San Antonio a growing center for international trade. It is through these global ties that we approach the 21st century confident that our community is also a place of growing prosperity.

Compellent Technologies

Mr. Phil Soran
CEO/President

Compellent developed a revolutionary storage area network (SAN) that reduces storage costs up to 74%, cuts storage administration time in half, and ensures continuous data availability. Today, with over 400 customers, an international distribution network of more than 80 channel partners, and award-winning recognition as the most innovative SAN on the market, Compellent is poised to continue its rapid ascent in enterprise storage.

Computer Generated Solutions India Pvt. Ltd.

Mr. Pradeep Kumar Tandon
Managing Director

CGS maintains a presence in 29 locations around the globe, including the United States, Canada, and India. CGS enables organizations to adapt and implement advanced technologies throughout their enterprise by delivering expert, cross-industry solutions on multiple platforms. By integrating with clients' core business operations, CGS offers a broad array of services including e-business consulting and application development, ERP and CRM solutions, system integration, learning services, helpdesk, and professional staffing.
