Paul Vetter

**Action item: Should invite Chris Z.** to future meetings (Jim Morel)

### **Old business**

Corrective actions for RWA violation from cave 0. Clock started on Sept. 1(?)  
Peggy drafted them and Claude needs to sign off.

### **New business:**

- I. Preparation for the ISM review (McCallum-Turner).
  - A. History: Requested by LBNL management for prep of eventual DOE review (2008?) Small and large scale reviews (teams).
  - B. Will visit the 88 on Monday the 25<sup>th</sup>. Claude and Daniela will be back.
  - C. List of people to interview.
  - D. Discussion of potential interview questions.
  - E. Review 5 ISM steps and their current intuitive application. Role of “active listening” during the review. Discussion of last minute preparations for the review.
  - F. Status of SAD
  - G. Fresh copy of AHD for PERF runs (**Action item: Paul Fallon**)
  - H. Meeting w/ Jim Floyd tomorrow to better assess what to expect. Jim Morel will personally contact people who will be interviewed to raise their comfort level on what to expect.
- II. Waste management: (Linnea) Stores is closed. Waste management will still provide signage, but not waste containers. Discussion on where to order waste containers.
- III. Rat vs. the High Voltage 12kV system: Rat shorted a couple of large fuses on the pad. Repair by an outside contractor. Could be a while (days).
- IV. Electrical accident this past week on the hill (Linnea), but no report as yet.
- V. Self-assessment process (Paul Fallon) has concluded. We did well. Some outcomes:
  - A. More regular walk-through (quarterly). Only about 40% compliance currently
