

disposal pits. The regulation 43 CFR 3162.3-2 divides the proposed actions into three categories:

(1) Actions that require submitting the form for approval prior to beginning work and again after completion of operations;

(2) Actions that require submitting the form only after completion; and

(3) Actions that do not require reporting.

The operator or its agent must submit the data to us. The data pertains to modifying operations conducted under the terms and provisions of an oil and gas lease (a contractual agreement between a lessee and the United States) for Federal or restricted Indian lands. In the case of a produced water disposal pit approval, the data provides the technical aspects of pit design to allow for sufficient water containment, which prevents unnecessary releases of produced water into the environment.

Based on our experience managing the activities described above, we estimate the public reporting burden for the information is 25 minutes per response. Respondents are operators and operating rights owners of Federal and Indian (except Osage) oil and gas leases. The frequency of response varies depending on the type of activities conducted at oil and gas wells and on the operations. We estimate 34,000 notices filed annually and a total annual burden of 14,167 hours.

BLM will summarize all responses to this notice and include them in the request for OMB approval. All comments will become a matter of public record.

SUPPLEMENTARY INFORMATION:

Title: 30 CFR Part 206, Subpart E—Indian Gas (Form MMS-4411, Safety Net Report).

OMB Control Number: 1010-0103.

Bureau Form Number: Form MMS-4411.

Abstract: The Department of the Interior (DOI) is responsible for matters relevant to mineral resource development on Federal and Indian lands and the Outer Continental Shelf (OCS). The Secretary of the Interior (Secretary) is responsible for managing the production of minerals from Federal and Indian lands and the OCS, collecting royalties from lessees who produce minerals, and distributing the funds collected in accordance with applicable laws. The Secretary has an Indian trust responsibility to manage Indian lands and seek advice and information from Indian beneficiaries. MMS performs the royalty management functions and assists the Secretary in carrying out DOI's Indian trust responsibility.

On August 10, 1999, MMS published in the **Federal Register** (64 FR 43506) a final rulemaking titled "Amendments to Gas Valuation Regulations for Indian Leases," with an effective date of January 1, 2000. These regulations are codified at 30 CFR Part 206, Subpart E. Form MMS-4411, Safety Net Report, governs the valuation for royalty

purposes of natural gas produced from Indian leases. In 30 CFR 206.172(e), MMS requires that lessees submit Form MMS-4411 when gas production from an Indian lease is sold beyond the first index pricing point. The gas regulations apply to all gas production from Indian (tribal or allotted) oil and gas leases (except leases on the Osage Indian Reservation).

Form MMS-4411 ensures Indian mineral lessors receive the maximum revenues from mineral resources on their land consistent with the Secretary's trust responsibility and lease terms. It permits lessees to comply with the regulatory requirements at the time that royalties are due.

The safety net calculation establishes the minimum value, for royalty purposes, of natural gas production from Indian leases. This reporting requirement will assist the Indian lessor in receiving all the royalties that are due and aid MMS in its compliance efforts. The safety net price is calculated using prices received for gas sold downstream of the first index pricing point. It will include only the lessee's or the lessee's affiliate's arm's-length sales price, and it

will not require detailed calculations for the costs of transportation. By June 30 following any calendar year, the lessee calculates a safety net price for each month of the previous calendar year. Lessees must calculate the safety net prices for each index zone where the lessee has an Indian lease and the gas is sold beyond the first index pricing point. The safety net price will capture the significantly higher values for sales occurring beyond the index point. The lessee will submit its safety net prices to MMS annually (by June 30) using Form MMS-4411.

We are also revising this ICR to include reporting requirements that were inadvertently overlooked when the final rule was published. See the chart below for these requirements and associated burden hours. These reporting requirements are rare and unusual circumstances where the standard valuation procedures set out in the Indian gas valuation rule are not appropriate.

MMS is requesting OMB's approval to continue to collect this information. Not collecting this information would limit the Secretary's ability to discharge his/

her duties and may also result in loss of royalty payments to the Indian lessor due to royalties not being collected on prices received under higher priced long-term sales contracts. Proprietary information submitted is protected, and there are no questions of a sensitive nature included in this information collection.

We have also changed the title of this ICR from "Safety Net Report" to "30 CFR part 206, subpart E—Indian Gas (Form MMS-4411, Safety Net Report)," to clarify the regulatory language we are covering under 30 CFR Part 206.

National Park Service

Cuyahoga Valley National Park EIS Availability

AGENCY: National Park Service.

ACTION: Notice of availability of the draft rural landscape management program Environmental Impact Statement for Cuyahoga Valley National Park, Ohio.

SUMMARY: Pursuant to section 102(2) of the National Environmental Policy Act of 1969, the National Park Service (NPS) announces the availability of the draft rural landscape management program Environmental Impact Statement (DEIS)

for Cuyahoga Valley National Park, Ohio (hereafter "the Park").

DATES: There will be a 60-day public review period for comments on this document. Comments on the DEIS must be received no later than 60-days after the Environmental Protection Agency publishes its notice of availability in the **Federal Register**. Public open houses for information about, or to make comment on, the DEIS will be announced in the local media and the Park's web site when they are scheduled. Information about meeting time and place will be available by contacting the Park's communications center at 440-526-5256 or visiting the Park's web site at: <http://www.nps.gov/cuva/management/rmprojects/ruraleis/>.

ADDRESSES: Copies of the DEIS are available by request by writing to Superintendent, Cuyahoga Valley National Park, 15610 Vaughn Road, Brecksville, OH 44141, by phone 440-546-5903, or by e-mail cuva_superintendent@nps.gov. A downloadable on-line version of the document is available at: <http://www.nps.gov/cuva/management/rmprojects/ruraleis/>.

FOR FURTHER INFORMATION CONTACT: Superintendent, Cuyahoga Valley National Park, 15610 Vaughn Road, Brecksville, OH 44141, or by phone 440-546-5903.

SUPPLEMENTARY INFORMATION: The preservation of the rural landscape is central to the Park's legislative mandate. The law, that established the Park, mandates the "preservation of the historic, scenic, natural, and recreational values of the Cuyahoga Valley" (Public Law 93-555, 1974). One component of the historic and scenic values of the Park is the rural landscape—lands and structures modified by humans for agricultural use. Throughout the Park's history, efforts to preserve the rural landscape have been sporadic; there has never been a comprehensive program to manage the rural landscape. As a result, many of the Park's rural landscape resources have been lost. Therefore, the Park is proposing to better protect and revitalize this cultural resource by implementing an integrated rural landscape management program, with the goal of more effectively and systematically preserving and protecting the rural landscape resources in the Park. The DEIS describes and analyzes the environmental impacts of alternatives and their associated impacts. In the Park's preferred alternative (alternative 2—Countryside Initiative), the rural landscape would be managed largely by issuing long-term

leases to private individuals for the purpose of conducting sustainable agricultural activities. Two additional action alternatives and a no action alternative are evaluated in this EIS.

Persons wishing to comment may do so by any one of several methods. They may attend the open houses noted above. They may mail comments to Superintendent, Cuyahoga Valley National Park, 15610 Vaughn Road, Brecksville, OH 44141. They also may comment via e-mail to cuav_superintendent@nps.gov (include name and return address in the e-mail message). Finally, they may hand-deliver comments to Park Headquarters, Cuyahoga Valley National Park, 15610 Vaughn Road, Brecksville, OH 44141.

The NPS' practice is to make comments, including names and home addresses of respondents, available for public review during regular business hours. Individual respondents may request we withhold their home address from the record, which we will honor to the extent allowable by law. There also may be circumstances, in which we would withhold from the record a respondent's identity, as allowable by law. If you wish us to withhold your name and/or address, you must state this prominently at the beginning of your comment. However, we will not consider anonymous comments. We will make all submissions from organizations or businesses, and from individuals identifying themselves as representatives or officials of organizations or businesses available for public inspection in their entirety.

The responsible official is Mr. William Schenk, Midwest Regional Director.

Dated: December 17, 2002.
