

Frank Lloyd Wright Winter Home

January 6, 2004

Mr. Mark Raissen
Certified Lighting Design
52 Magellan Aisle
Irvine, CA 92620

Dear Mr. Raissen,

The Frank Lloyd Wright Foundation would like to thank you for meeting at Taliesin West to offer your lighting design and consultation services. As you observed, we are in need of site design and consultation with respect to various aspects of our existing lighting, with energy efficiency and easy maintenance prime concerns.

We appreciate your interest in this National Historic Site, Frank Lloyd Wright's winter home, and look forward to a significant reduction in our energy bills with the introduction of your uniquely creative programs.

Our architectural and interior design team here at Taliesin West was extremely impressed with your presentation and ability to upgrade our illumination while maintaining Mr. Wright's illumination vision and design intent.

The Frank Lloyd Wright Foundation is a 501 © 3 not-for-profit organization constantly seeking support for restoration and maintenance of these historic buildings and grounds toured by over 124,000 worldwide visitors annually. We are especially pleased that you have offered to donate not only your services but also all necessary products as well. We look forward to recognizing such generosity in our 2004 and 2005 Annual Reports, as we understand our relationship will extend over the next year or two.

Again, we are eager to begin this exciting process and wish to extend our sincere gratitude for your most generous offer.

With best regards,

A handwritten signature in blue ink that reads "Gail Warden".

Gail C. Warden, CFRE
Vice President Development
