SUPPLEMENTARY INFORMATION:

I. Abstract

The Treaty on Fisheries Between the Governments of Certain Pacific Island

States and the Government of the United States, signed in Port Moresby, Papua New Guinea, in 1987, and its annexes, schedules and implementing agreements, as amended (Treaty), authorize U.S. tuna vessels to fish within fishing zones of a large region of the Pacific Ocean. The South Pacific Tuna Act (16 U.S.C. 973g and 973f) and U.S. implementing regulations (50 CFR 282.3 and 282.5) authorize the collection of information from participants in the Treaty fishery. Vessel operators who wish to participate in the Treaty fishery must submit annual license and registration applications and periodic written reports of catch and unloading of fish from a licensed vessel. The information collected is submitted to the Forum Fisheries Agency (FFA) through the U.S. government (National Marine Fisheries Service). The license and registration application information is used by FFA to determine the operational capability and financial responsibility of a vessel operator interested in participating in the Treaty fishery. Information obtained from vessel catch and unloading reports is used by FFA to assess fishing effort and fishery resources in the region and to track the amount of fish caught within each Pacific island state's exclusive economic zone for fair disbursement of Treaty monies. If the information is not collected, the U.S. government will not meet its obligations under the Treaty, and the lack of fishing information will result in poor management of the fishery resources.

SUPPLEMENTARY INFORMATION:

I. Abstract

The Magnuson-Stevens Fishery Conservation and Management Act (Act) authorizes the establishment of Regional Fishery Management Councils to exercise sound judgment in the stewardship of fishery resources through the preparation, monitoring, and revision of such fishery management plans under circumstances, (a) which will enable the States, the fishing industry, consumers, environmental organizations, and other interested persons to participate in the development of such plans, and (b) which take into account the social and economic needs of fishermen and dependent communities.

Section 302(j) of the Act requires that Council members appointed by the Secretary, Scientific and Statistical Committee (SSC) members appointed by a Council under Section 302(g)(1), or individuals nominated by the Governor of a State for possible appointment as a Council member disclose their financial interest in any Council fishery. These interests include harvesting, processing, lobbying, advocacy, or marketing activity that is being, or will be, undertaken within any fishery over which the Council concerned has jurisdiction, or with respect to an individual or organization with a financial interest in such activity. In 2008, the Secretary is required to submit an annual report to Congress for 2007 on action taken by the Secretary and the Councils to implement the disclosure of financial interest and recusal requirements, including identification of any conflict of interest problems with respect to the Councils and SSCs and recommendations for addressing any such problems.

Seated Council members appointed by the Secretary, including the Tribal Government appointee and SSC members, must file a financial interest form within 45 days of taking office and must provide an update of their statements at any time any such financial interest is acquired, or substantially changed.

The Act further provides that a member shall not vote on a Council decision that would have a significant and predictable effect on a financial interest if there is a close causal link between the Council decision and an expected and substantially disproportionate benefit to the financial interest of the affected individual relative to the financial interest of other participants in the same gear type or sector of the fishery. However, an affected individual who is declared ineligible to vote on a Council action

may participate in Council deliberations relating to the decision after notifying the Council of his/her recusal and identifying the financial interest that would be affected.
