ABSTRACT

County Business Patterns, 1988-1997 Diskette Extract [machine-readable data file] / prepared by the Bureau of the Census. —Washington: The Bureau [producer and distributor], 1999.

Type of File

Summary statistics.

Universe Description

The universe is all business establishments with one or more paid employees. Data are not included for agriculture production, railroad, most government, or household employment. Data for the 1984-1987 County Business Patterns are tabulated by kinds-of-business categories based on the 1972 edition of the Standard Industrial Classification (SIC) Manual, including the 1977 supplement. Data for 1988 and later years are based on the 1987 SIC designations.

Subject-Matter Description

This file provides data on total number of establishments, mid-March employment, annual payroll, and number of establishments by nine (9) employment size classes. Although data in County Business Patterns reports are not shown for SIC's with fewer than 100 employees in a given area at the county level, there is no such restriction on the diskette extracts. This series excludes governmental establishments classified in the covered industries except for liquor stores and wholesale liquor establishments operated by State and local governments; all government hospitals are included beginning with 1989 data.

U.S. Summary File contains information for all 2-, 3-, and 4-digit SIC codes.

State and county files provide data at the **2-digit SIC code level** only.

Geographic Coverage

United States, 50 States, the District of Columbia, and counties. Data for Puerto Rico are released only in publication format.

Technical Description

File Medium: 3½ in. diskette.

File Structure: Variable length record; comma-delimited format.
