NASA Publishes Ocean Surface Wind Power Density Maps: Plus Top Ten Locations

Treehugger (Free subscription) | 4 hours ago

Thinking about investing in wind farms on the high seas ? Scientists from NASA's Earth Science Division, working out of the California Jet Propulsion Lab , have used several years worth of QuikSCAT satellite data to produce wind power density maps for the ocean surface. Pictured here is the Northern Winter map. Northern Summer view is included in this link . (A list of "Top Ten" locations for frequent...

Wind-Powered String Plucker

CRAFT Magazine (Free subscription) | yesterday

Collin @ MAKE writes: Ranji t from Brooklyn created this pleasant device and displayed it at the recent Figment Festival - seems a prime candidate to replace the windchime, hmm ... windstring? - come see and hear this-- um-- whatever it is I love how subtle this sculpture is. It's soft and gentle, unlike most piercing or clunking windchimes. [Read this article] [Comment on this article]

The texan oil baron and the winds of change

The Independent (Free subscription) | 20 hours ago

Everything is bigger in Texas, even the wind turbines. They stand twice as high as the Statue of Liberty, with blades as wide as the wings on a jumbo jet. Each one can earn hundreds of dollars every year for landowners, a whole wind farm can generate hundreds of thousands of dollars. It's hardly a surprise then that new turbines are popping at a rate
