Low Power Television Auction No. 81 Non-Mutually Exclusive Proposals

Mass Media Bureau Announces March 15, 2001, FCC Form 346 Application Deadline

On June 23, 2000, the Mass Media Bureau and Wireless Telecommunications Bureau (Bureaus) announced a limited auction filing window for certain low power television (LPTV), television translator, and Class A television broadcast stations.¹ The filing window was partially extended to permit the engineering portion of the filing to be submitted up to August 31, 2000.² By this public notice, the Video Services Division, under delegated authority, provides as Attachment A a list of all proposals received during the filing window, as partially extended, that are not mutually exclusive with any other proposal submitted in the filing window. Since the proposals listed in Attachment A are not mutually exclusive with any other proposal, *i.e.*, since they are “singletons,” they will not be subject to the Commission’s auction procedures.³ By this public notice, the Video Services Division announces processing procedures for the singleton proposals. In a subsequent public notice, the Bureaus will

¹ See Notice and Filing Requirements Regarding July 31 through August 4, 2000, Limited Low Power Television/Television Translator/Class A Television Auction Filing Window, *Public Notice*, DA 00-1383, released June 23, 2000. Since any mutually exclusive application filed during the window would be subject to the Commission’s auction procedures, applicants were required to file electronically an FCC Form 175, Application to Participate in an FCC Auction, by the August 4, 2000 deadline. LPTV and television translator filers were required also to file Section I, the Tech Box portion of Section III, and Question 12 of Section III of FCC Form 346. Class A television filers were required also to submit Section I and the Tech Box portion of Section III of FCC Form 301-CA.

² See Limited Low Power Television/Television Translator/Class A Television Auction Filing Window Partially Extended to August 31, 2000, *Public Notice*, DA 00-1648, July 25, 2000.

announce those proposals that are mutually exclusive, and will propose an auction date and auction procedures for selecting among these MX proposals.

Required Forms and Fee: The parties listed in Attachment A must now submit a complete FCC Form 346 (June 2000 version) by March 15, 2001, pursuant to the procedures set forth in the Commission's rules.⁴ Parties submitting an FCC Form 346 must also simultaneously submit the required application filing fee of \$570.00 for an FCC Form 346 and an FCC Form 159, Remittance Advice.⁵

Applicants filing their FCC Form 346 in paper form should check the appropriate response to Question 5 of Section I (either "new station," "major modification of construction permit" or "major change in licensed facility") and include the file number listed in Attachment A in the space provided in Question 5(a) of Section I of the Form.

Applicants filing their FCC Form 346 electronically (see below) may obtain a "pre-filled" version of their FCC Form 346 by checking "amendment to pending application" as their response to Question 5 of Section I and should include the file number listed in Attachment A in the space provided in Question 5(a) of Section I of the Form.

Attachment A: Non-Mutually Exclusive Proposals Not Subject to Auction

⁷ See 47 C.F.R. § 73.5005. Pursuant to procedures adopted in the *Broadcast Auction First Report and Order*, non-mutually exclusive applicants filing FCC Form 346 applications may change the technical proposals specified in their previous filing. However, such non-mutually exclusive applicants may not specify in the FCC Form 346 application a change in the proposed facility that constitutes a major change from the facility specified earlier, nor may applicants create new mutual exclusivity or application conflict. See *Broadcast Auction First Report and Order*, 13 FCC Rcd at 15991.
