

UNAPPROVED PARTS NOTIFICATION

Flight Standards Service

FAA
Aviation Safety

No.: 2008-200700169

Date: October 30, 2008

<http://www.faa.gov/aircraft/safety/programs/sups/upn>

AFFECTED PRODUCTS

Parts sold by FH 1100 Manufacturing Corporation, Van Nevel Helicopters, or Helicopter Technology, Inc., for installation on Hiller Model 1100 and FH 1100 helicopters.

PURPOSE

This notification advises all aircraft owners, operators, manufacturers, maintenance organizations, parts suppliers, and parts distributors regarding possible unapproved parts introduced into the aviation community.

BACKGROUND

Information received during a Federal Aviation Administration (FAA) investigation revealed between December 1999 and September 2008 FH 1100 Manufacturing Corporation, Van Nevel Helicopters, or Helicopter Technology, Inc., located at 6080 Industrial Blvd., Century, Florida, distributed a quantity of FH 1100 helicopter parts that have been reported to be unapproved. Helicopter Technology, Inc., formally held FAA Air Agency certificate number HT9R389W.

Evidence indicates the above companies sold and/or returned to service a large number of helicopter parts with no traceability. Evidence also indicates the FH 1100 Manufacturing Corporation has not provided appropriate documentation or traceability substantiating the parts were produced under an FAA production approval.

RECOMMENDATIONS

Federal Aviation Regulations require that type-certificated products conform to their type design. Aircraft owners, operators, maintenance organizations, parts suppliers, parts distributors, and related personnel should inspect their aircraft, aircraft records, and/or parts inventories for any parts acquired from the FH 1100 Manufacturing Corporation or one of its associated companies. If you find any of these parts installed on aircraft, you should take appropriate action. If these parts are located in an existing inventory, it is recommended that these parts be quarantined to prevent installation until a determination can be made as to their disposition.

FURTHER INFORMATION

Further information concerning this unapproved parts notification can be obtained from the FAA Flight Standards, Southern Region headquarters, ASO-290, Flight Standards Evaluation and Analysis Branch, Special Emphasis Investigation Team (SEIT). In addition to the above recommendations, the FAA would appreciate any information concerning the discovery of these parts from any source, the means used to identify the source, and the action taken to remove the parts from service. This notice originated from the FAA, Southern Regional Office, 1701 Columbia Ave., College Park, Georgia 30337, telephone (404) 305-6081, fax (404) 305-6086.
