Chung-Chieng "Aaron" Lai

U. S. Citizen, DOE Q-cleared Married with 2 children

Work: Los Alamos National Laboratory Home: 865 Camino Encantado

EES-8, MS-D401, Los Alamos, NM 87545 Los Alamos, NM 87544-2549

Tel: 505/665-6635, Fax: 505/665-3415 Tel: 505/662-0760

E-mail: CAL@vega.lanl.gov

Education:

Ph.D. (1981-84): Depts. of Meteorology and Oceanography, Texas A&M Univ.

M.S. (1978-80): Dept. of Atmospheric Sciences, Univ. of California, Los Angeles (UCLA).

M.S. (1974-76): Institute of Oceanography, National Taiwan Univ.

B.S. (1968-72): Dept. of Geography & Meteorology, National Taiwan Univ.

Personal Development Training:

Los Alamos Nat'l Lab. HR-T&D, 1998: Managing communications and conflict.

Los Alamos Nat'l Lab. HR-T&D, 1998: Essentials of supervision in LANL.

Los Alamos Nat'l Lab. HR-T&D, 1996: Program Development Overview: The Marketing Skills Training.

Los Alamos Nat'l Lab. HR-T&D, 1995: Budgeting, Property and Procurement in the Laboratory Context.

Los Alamos Nat'l Lab. HR-T&D, 1994: The Seven Habits of Highly Effective People.

Wilson Learning Corp. Social Style Series (Managing Interpersonal Relationship), 1993: Dimensions of social style, Building on social style differences, Managing styles in conflict.

Dale Carnegie & Assoc., Inc. Dale Carnegie Course, 1991: Public speaking and human relations. Certificate.

Professional Experiences:

2/93 - Climate Studies Team Leader, Technical Staff Member, Earth & Environmental Science Division, Los Alamos National Lab., Los Alamos, NM.

Category Team Member, Geosciences, Space Science and Astrophysics (GSSA) Category, Laboratory-Directed Research & Development (LDRD) Office (1997 - 2000).

Science & Engineering Advisory Council Member, 1999 -.

- (1) Participated in Dept. of Energy's (DOE) Atmospheric Radiation Measurement (ARM) program regional atmospheric and cumulus clouds modeling research. (2/93 9/93)
- (2) Completed the tasks of coupling the UCLA Atmospheric general circulation model (GCM) with the Los Alamos Parallel Ocean Program (POP) Ocean GCM and the CASA Giga-bit distributive modeling experiment (10/93 9/94). Completed the coupling of NCAR CCM2-Omega and Los Alamos POP into a global coupled ocean-atmospheric model (10/94 02/96).
- (3) Leading the team of "flux coupler" for the coupling between NCAR CCM3 and Los Alamos POP sponsored by the DOE CHAMMP/CCPP and HPCC programs. (10/95 -)
- (4) Project Leader of two Campus-Laboratory-Cooperation projects, three Laboratory-Directed R&D project. Developed a regional coupled ocean-atmospheric model over the Northeast Pacific and US west coast for the cloud and precipitation simulation. (11/95 10/98)

EES Division Diversity Working Group member. (1/96 - 9/97)

Asian American Diversity Working Group member. (3/98 -)

7/89 - 1/93: Scientist II & Data Manager, Institute for Naval Oceanography (INO/UCAR)/Naval Research Laboratories, Stennis Space Center, MS.

Harvard Univ. Visiting Scholar, Center for Earth and Planetary Physics. (10/90 – 9/92) Chairperson and member. INO Scientific & Technical Steering Committee (Director's Committee)

Chairperson and member, INO Scientific & Technical Steering Committee (Director's Committee). (9/91 - 12/91)

Project Leader, Office of Naval Research (ONR)/INO Data Assimilation & Model Evaluation Experiment (DAMÉE). (10/90-9/92)

Additional projects involved:

- (1) Data Analysis and Synthesis System (DASS): Led the "Data Accession Team" and built up an extensive INO Oceanic Data Library. Major items in the library include in-situ marine observations (CTD, XBT, etc.), satellite-derived remote sensing data (MCSST, GEOSAT SSH, etc.), model forecasts (NOGAPS, etc.), Levitus Climatology, etc. (7/89 9/90)
- (2) Verification Module (VERMOD): Led the task in formulating the verification schemes in the Experimental Center for Mesoscale Ocean Prediction (ECMOP) system. (7/89 9/90)
- (3) Led the task in air-sea data sets for SEACOAST (Semi-Enclosed And Coastal Oceanographic & Atmospheric Simulation Technology) project. (10/92 1/93)
- (4) Global Change: Took part in the preparation for NRL participation in the Global (climate) Change Research Program.
- 1/85 6/89: **Adjunct Assistant Professor**, Dept. of Atmospheric Science, State Univ. of New York at Albany, Albany, NY. (9/87 6/89)

Taught ATM450 (Senior/Graduate): Computer Applications in Atmospheric Sciences. Consulted graduate students' thesis and dissertation research.

Research Associate. Coordinated and carried out research topics:

- (1) Three-dimensional ageostrophic circulation, ψ vector,
- (2) The initiation and evolution of an intensive upper-level front,
- (3) An investigation into the forecast failures of National Meteorological Center's operational models (e.g., LFM, NGM) on the dynamics/mechanism of the Trough Merger.
- (4) Case studies related to the Experiments on the Rapid Intensification of Cyclones in Atlantic (ERICA) and the Genesis of Atlantic Lows Experiment (GALE) field programs.
- (5) Developed many atmospheric analysis packages including vorticity, kinetic energy, and thermodynamic budgets, Q vector analysis, 2- and 3-D frontogenesis, potential vorticity analysis, quasi-geostrophic diagnosis, and boundary influx.
- 1/81 12/84: Graduate Research Assistant, Dept. of Meteorology, Texas A&M Univ., College Station, TX.
 - (1) Carried out the Dow Chemical Company storm surge forecast project.
 - (2) Developed a probabilistic forecasting model of tropical cyclone-generated storm surge and wind for the Freeport Industrial Community, Texas. The model consists of three parts: (i) a bathymetric surge model, (ii) a bay surge model, and (iii) a probabilistic integration program.
 - (3) Investigated the causes of the bias of the official tropical cyclone forecasts issued by the National Hurricane Center.

Graduate Teaching Assistant. Course titles:

 ${\bf Met.~451~(Junior/Senior):}~{\it Fundamentals~of~Meteorological~Analysis,~and}$

Met. 452 (Senior): Weather Analysis and Prognosis

- 8/78 12/80: Post-Graduate Research Assistant II, Dept. of Atmospheric Sciences, UCLA.
 - (1) Investigated the dynamics of ozone transport in the stratosphere.
 - (2) Participated in the experiments of a Solar Semidiurnal Atmospheric Tides Model.
 - (3) Investigated the FGGE-observed & GFDL spectral model output cyclone tracks in the southern hemisphere.
- 9/74 8/78: **Recommended-Rank Officer** (civil servant), Taipei Meteorological Center, Civil Aeronautics Administration, Taipei, Taiwan.

Chaired the Committee on the Automation of Meteorological Data Communication.

Forecaster, Programmer. Designed *The procedure of clear-air-turbulence forecast*. (Concurrently, a graduate student in the Institute of Oceanography, National Taiwan Univ., 9/74-6/76; an adjunct physics teacher, Pei-tow Senior High School, Taipei, 1/78-6/78.)

- 9/72 8/74: Weather forecaster, Second Lieutenant, Chia-Yi Air Force Base, Taiwan. (conscription)
- 7/71 6/72: **Undergraduate Research Assistant**, Dept. of Geography & Meteorology, National Taiwan Univ., Taipei, Taiwan.

Designed vertical cross-sections to study the redistribution of kinetic energy of tropical cyclones after passing the Central Mountains of Taiwan.

Research Grants and Contracts:

- Lai, C.-C. A. and Z. Huang: Antarctic circumpolar wave and El Niño. Los Alamos Nat'l Lab., Laboratory-Directed R&D program. LDRD/ER-99026. Oct. 1998 Sept. 2001.
- Lai, C.-C. A.: Regional climate and precipitation variation assessment via integrated global and regional coupled ocean-atmosphere models. Los Alamos Nat'l Lab., Laboratory-Directed R&D program. LDRD/IP-98183. Oct. 1997 Sept. 1998.
- Lai, C.-C. A., M. Ghil, K. Ide, and A. W. Robertson: Interannual-to-decadal variability in the coupled oceanatmospheric climate system over the North Pacific basin and western United States. Univ. of California, Campus-Laboratory Cooperation program. CLC/LANL-UCLA. Nov. 1995 – Oct. 1998.
- Lai, C.-C. A., B. Weare, and S.-T. Soong: Coupled ocean-atmospheric mesoscale model studies of water and climate. Univ. of California, CLC program, CLC/LANL-UCD. Nov. 1995 Oct. 1998.
- Lai, C.-C. A.: Coupled ocean-atmosphere model system for studies of interannual-to-decadal climate variability over the North Pacific basin and the precipitation over southwestern United States. Los Alamos Nat'l Lab., Laboratory-Directed R&D program. LDRD/IP-96444. Oct. 1995 Sept. 1996.
- Cooper, D., J. M. Reisner, K. R. Costigan, C.-C. A. Lai: Improved atmospheric transport for risk assessment in complex terrain. Los Alamos Nat'l Lab., LDRD/PD-96. Oct. 1995 Sept. 1996.
- Lai, C.-C. A., D.-S. Ko, L.A. Perkins, R.C. Willems: Data Assimilation and Model Evaluation Experiments.

 Office of Naval Research, Research Grant No. N00014-92-J-4112. Oct. 1991 Sept. 1992.
- Dietrich, D.E., C.-C. A. Lai, L. Le, R.C. Willems: Semi-Enclosed and Coastal Ocean and Atmospheric Similation Technology (SEACOAST). Office of Naval Research, Research Grant No. N00014-92-J-4109. Oct. 1992 – Sept. 1993.
- Lai, C.-C. A., J.A. Leese: Experimental Center for Mesoscale Ocean Prediction (ECMOP). Office of Naval Research, Cooperative Agreement N00014-90-CA-0001. Oct. 1989 Sept. 1992.
- Lai, C.-C. A., L. Le, D.-S. Ko, W.P. Oconnor, R.C. Willems, J.A. Leese: North Atlantic Ocean Prediction System (NAOPS). Office of Naval Research, Numerical Ocean Modeling & Prediction Program, Research contract 061153N-R310300, Oct. 1989 Sept. 1990, and 0602435N-RM35G90-92, Oct. 1989 Sept. 1992.
- Bosart, L.F., and C.-C. Lai: Intermountain cyclogenesis. National Science Foundation, Research Grant No. ATM-8812345. May 1988 Apr. 1991.
- Bosart, L.F., and C.-C. Lai: GALE project synoptic and mesoscale case studies. National Science Foundation, Research Grant No. ATM-8811106. June 1988 May 1991.
- Bosart, L.F., and C.-C. Lai: Case studies of explosive oceanic cyclogenesis (ERICA Project). Office of Naval Research, Research Contract No. NAVY-320-6485A. Feb. 1987 Feb. 1988.
- Bosart, L.F., and C.-C. Lai: Synoptic and subsynoptic scale diagnostic studies of tropical convective systems in weakly baroclinic environments. National Oceanic and Atmospheric Administration, Research Contract No. NOAA-320-6423A. Sept. 1985 Mar. 1988.
- Bosart, L.F., and C.-C. Lai: Synoptic and mesoscale studies of weather circulations conditioned by orography. National Science Foundation, Research Grant No. ATM-8417643, (NSF-320-1117B). Apr. 1985 Sept. 1988.
- Bosart, L.F., and C.-C. Lai: Case studies of cyclogenesis and frontogenesis in the Carolinas as part of the core effort for the East Coast Cyclone Project (GALE). National Science Foundation, Research Grant No. ATM-8311106, (NSF-320-1386A) May 1984 Nov. 1988.
- Thompson, A.H., and C.-C. Lai: Probabilistic forecasting model for coastal storm surge. Dow Chemical Comapny, Research Contract No. 55114. Feb. 1982 Aug. 1984.
- Lai, C.-C., Y.-C. Ho, and H. Hsiao: Automation of meteorological data communication. Civil Aeronautics Administration, Research Grant. Jan. 1977 Jan. 1978.

Awards, Honors, Professional Societies & Activities:

Los Alamos National Laboratory, Los Alamos Achievement Award, 1997.

Listed in Who's Who in America, Science & Technology, 1997.

National Research Council, Research Associateship Award, 1984. Didn't accept it due to visa held.

Dean's award to the highest distinctive students on graduation, National Taiwan Univ., 1976.

Award to the excellent student in sciences on Edison's Anniversary, 1968.

Elected to the Chi Epsilon Pi $(\chi \epsilon \pi)$ Meteorological Honor Society, 1982.

Elected to the Sigma Xi Society, 1982. Inactive now.

Elected to the Phi Tau Phi $(\phi \tau \phi)$ Scholastic Honor Society, 1978.

Member, American Geophysical Union (AGU).

Member, American Meteorological Society (AMS).

Member, AMS Board on Women and Minorities, 1994 – 1997.

Member, The Oceanography Society.

Founder, National Management Association, Rio Grande Chapter, 1995.

President, Los Alamos Chinese Cultural Association, 1994.

Founder and President, UCLA Chinese Echo club, 1979.

Founder and President, Meteorological Student Society of the National Taiwan Univ., 1971.

Den Leader, American Cub Scouts, 1989-1991.

Consultancies:

Consultant to the Director General, Central Weather Bureau, Taiwan, on the development of Marine Meteorology R & D Program. 1990 – 1991.

Consultant to the Dept. of Meteorology, Texas A&M Univ. on the upgrade of the Dow Chemical Company Hurricane Surge Model, 1987.

Graduate student consultant to the Dow Chemical Company on the implementation of Hurricane Surge Forecast Model, 1983-84.

Other Qualifications:

Passed the Air Forces Meteorological Reserve Officer Qualification by the ROC gov. in April, 1972.

Passed the High-Rank Civil Officer Examination by the Examination Yuan, ROC gov. in Oct. 1972.

Passed the Architecture Engineering Qualification by the Examination Yuan, ROC gov. in July 1976.
