

BIRD CHECKLIST

This list is arranged in accordance with the A. O. U. Checklist of North American Birds (Fifth Edition, 1957, with modifications in 1973 and 1976).

The following is a key to abundance and occurrence:

ABUNDANCE

Common indicates that the species can usually be seen during the season indicated and in the appropriate habitat.

Uncommon indicates that the species cannot always be observed unless searched for in the appropriate habitat during the season indicated.

Rare indicates a very low possibility of encountering the species, although not out of normal range.

Casual indicates the species has been observed only a few times and not on an annual basis.

Accidental indicates that a species has been observed in the park but is of extremely unlikely occurrence.

STATUS

Spring - March - May

Summer - June - August

Fall - September - November

Winter - December - February

LOONS	Spring	Summer	Fall	Winter
Common Loon	-	-	Casual	Casual
GREBES				
Red-necked Grebe	Accidental	-	-	-
Horned Grebe	Casual	-	Rare	Casual
Eared Grebe	Common	Uncommon	Common	Casual
Western Grebe	Casual	-	Casual	Casual
Pied-billed Grebe	Common	Uncommon	Common	Common

PELICANS				
White Pelican	Casual	-	Casual	-
CORMORANTS
